NOBLES TO MEET IN GATE CITY DURING THE SPRING OF 1914

After the Committee Had Reported to the Imperial Council in Favor of Buffalo, N. Y., a Dark Horse

ATLANTA AND MEMPHIS APPEALED FROM REPORT

Spirited Fight Followed on the Floor of Council and Resulted in the Gate City Winning Over All

BY RAYMUND DANIEL.
(Journal Staff Correspondent.)

DALLAS, Tex., May 14.—Atlanta wins the 1914 Shriners' convention.

The victory came after the committee had reported in favor of Buffalo, N. Y., a dark horse, and the appeal was carried to the floor of the imperial council.

Atlanta won easily, by the handsome vote of 268, while Memphis ran a poor third, with 67 votes. Buffalo polled just 55 of the 450 votes.

The committee on next convention city, appointed yesterday, reported in favor of Buffalo for the 1914 Shrine convention. Then went before the imperial council where Atlanta and Memphis were nominated. Selection is by ballot, something over 220 votes being necessary to win.

A resolution to substitute Atlanta for Buffalo in the committee report was defeated by viva voce vote. It was said if three cities are in the race the selection may be considerably complicated and delayed.

Ernest A. Cutts, of Savannah, imperial outer guard, was elevated to imperial captain of the guard and William W. Irwin, of Wheeling, W. V., was elected imperial potentate.

The Atlantians, at least a larger proportion of them, will leave tomorrow, reaching Atlanta after several stops on the way, about midnight Saturday.

Immunity of the annual meetings of the imperial council of the Ancient Arabic Order of the Nobles of the Mystic Shrine, which closed its convention in Dallas Wednesday, may be lifted when it is learned that the clearings of the Dallas banks for the week of the Shrine will show a gain of over $3,500,000 over 30,000 people, including Shriners and visitors, were in Dallas during the time the Shrine meeting.

Dallas has spent over $100,000 in entertainment, and Atlanta with its lavish hospitality, its many adequate hotels and larger city, will be in position to establish the greatest record yet made.

It was expected Wednesday morning that the imperial council would adjourn its sessions by late in the afternoon. The social program will be continued throughout Thursday and Thursday night.

RETURN SATURDAY NIGHT.

The Atlanta and Georgia delegations will leave Thursday, the patrol and drum corps will return by way of Hot Springs and Memphis, reaching Atlanta about midnight Saturday night, or early Sunday morning. The other members of the delegation will be split up into a number of parties, some of them going via the Panama and Texas, others going to St. Louis and still others to the coast.

All differences between the labor, musicians and the Atlanta drum corps, which is not a union organization, were amicably adjusted and the Yaarab drum corps took part in all the parades and divided the applause with the Atlanta patrol.

Members of the Atlanta and Savannah temples of the Ancient, Arabic Order of the Nobles of the Mystic Shrine will show their esteem and appreciation of a former Georgia boy, Governor O. B. Colquitt, of Texas, when they present the chief executive with a handsome automobile in Austin.

The presentation will be made by the delegations as they return home by way of Austin. The idea was that of Potentate Travis, of Alee temple, of Savannah, which was heartily co-operated in by Illustrious Potentate Forrest Adair, of Yaarab temple, of Atlanta.

The cup will represent the individual subscriptions of the members of Alee and Yaarab temples, and will be in token of the love and commendation of the Georgia boy, who not only has made good in Texas, but has become the governor of the largest state in the union.

Governor Colquitt is a Brooks county boy, who came to Texas several years ago and has risen to the forefront of the business world as well as a leading factor in Democratic politics.

There are scores of former Georgia and Atlanta boys who are now residents of the Lone Star State and there may be a special delegation who may go to Austin to see the presentation.

The principal entertainment feature is a ball tonight on a dancing floor prepared for 10,000 persons in an allegory setting called the "Garden of Allah."

ELECTION OF OFFICERS.

William W. Irwin, of Wheeling, W. Va., was today elected imperial potentate of the Ancient Arabic Order of Nobles of the Mystic Shrine. Other officials elected were:

Imperial deputy potentate, Frederick R. Smith, Rochester, N. Y.

Imperial chief rabban, J. Putnam Stevens, Portland, Maine.

Imperial assistant chief rabban, Henry F. Niedringhaus, Jr., St. Louis.

Imperial high priest and prophet, William S. Brown, Pittsburg.

Imperial treasurer, Benjamin W. Rowell, Boston.

Imperial recorder, Charles Overnshire, Minneapolis.

Imperial oriente guide, Elias T. Jacoby, Indianapolis.

Imperial first ceremonial master, W. Freeland Kendrick, Philadelphia.

Imperial second ceremonial master, Ellis L. Garretson, Tacoma, Wash.

NEW THEORY FAILS TO CHANGE COURSE OF MURDER PROBE

"A Local Celebrity" Is Working Out the New Theory and He Had Not Reported to the Solicitor on Wednesday

GIRL'S HANDWRITING GIVES IMPORTANT CLUE

Grand Jury to Take Up Case May 22 or 23, Says Solicitor, Criminal Court Postpones Session at Dorsey's Request

At 2:10 Wednesday afternoon Solicitor Dorsey announced that the grand jury would take up the Phagan case on Thursday, the 22d, or Friday, the 23d, unless something intervened to make it indivisable. At that time bills will be presented against Leo M. Frank and the negro, Newt Lee, for the grand jury's consideration.

Solicitor General Hugh M. Dorsey had received no report Wednesday from the person who is working on the new theory in the Phagan murder mystery. He is continuing his examination of many witnesses, some of whom testified at the inquest and it is now apparent that the new theory, however plausible, has not turned the investigation from its old course.

One man, whom the solicitor terms "a local celebrity," is working on the new theory alone, and the solicitor made no intimation as to the time this man is expected to make his report.

The investigation is dragging and Wednesday Mr. Dorsey said again that he was not ready to state when he would present the names of Leo M. Frank and Newt Lee, the two men held by the coroner's jury, to the grand jury.

WILL POSTPONE COURT.

The solicitor, his assistant and attaches of his office are so busy with the Phagan investigation that an effort was made to postpone the regular session of the criminal division of the superior court, which is slated to begin on next Monday.

At 2 o'clock it was definitely decided to postpone the session of the criminal court until the week beginning May 26 to permit the solicitor more time to work on the Phagan case.

It was learned Wednesday that another arrest in the Phagan case was imminent Tuesday when Solicitor Dorsey stopped it. Who it is that was about to be arrested or what his connection with the case is supposed to be could not be learned. Neither is it known whether the solicitor has entirely abandoned a further arrest or has

SCANTILY-CLAD STUDENTS SPEND NIGHT ON CAMPUS

Over 200 College Boys Forced to Hunt New Place for Meals—Small Loss to the Students' Property

(Special Dispatch to The Journal.)

MACON, Ga., May 14.—Fire that is supposed to have originated from a defective wire damaged the main dormitory of Mercer university to the extent of about $3,000 this morning at 2:30 o'clock before the fire department could reach the building.

Shouts of fire from the students sleeping directly over the kitchen threw over 200 students in a tumult as they hastened to pack their belongings in suit cases and hurl them from the windows to the streets.

Attired in nothing but their night robes, many of the boys remained on the campus until day this morning. Practically all the property of the young men was saved, but the building was badly damaged by smoke and water.

Prof. J. F. Sellers announced this morning that over 200 students would have to get their meals elsewhere until repairs were made.

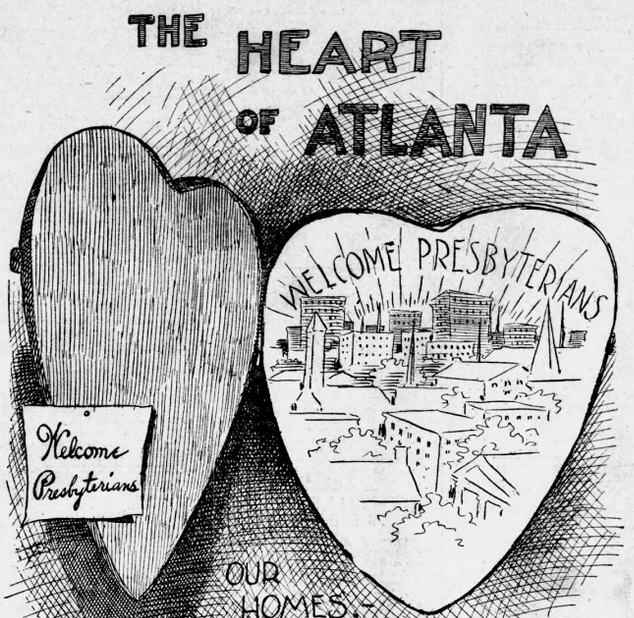
Seven Presbyterian Conferences Meet

THROWN WIDE OPEN



WM. T. ELLIS, FAMOUS RELIGIOUS WRITER, TELLS OF BIG THINGS BEFORE ASSEMBLIES IN HIS FIRST CONTRIBUTION TO JOURNAL

By William T. Ellis

THE vanguard of the most representative American gathering that has ever met within Atlanta's hospitable gates has already reached the city, and wearers of red, white or blue ribbons may be seen in all parts of Atlanta.

The city has undertaken the immense task of extending hospitality to some 1,500 commissioners, representing the three leading Presbyterian denominations of the land, together with a commission of the Associate Reformed Presbyterian church.

The man of the street, who does not take things churchly into his everyday thinking, may be surprised to know that this convention is far more representative and intrinsically important than that of any secret order or commercial organization. The actual membership of the three bodies is about 2,000,000, which gives a constituency in the United States of more than 10,000,000 persons directly affiliated with the Presbyterian churches.

The influence of this organization is as significant as its size. Wherever one goes in the United States, from coast to coast, border to border, he finds Presbyterian churches. There are a number of delegates from mission fields. The commissioners is made up of thoughtful, influential folk, who are among the leaders of their separate communities.

COMMISSIONERS ARE INFLUENTIAL MEN.

These men now in Atlanta represent the most enlightened citizenship of America, for the political revolution of a year ago was wrought primarily by the church folk, who have been thinking and talking earnestly about the practical problems of citizenship and government. Almost every man in Atlanta today wearing the blue ribbon which designates the Presbyterian church in the U. S. A., or the white ribbon which is the insignia of the United Presbyterian church, is some sort of a teacher of the people, either as a minister or a Bible class teacher. A large percentage of professional men may be found among the commissioners. This is not a crowd that will be easily stampeded, and it will not be notable for any spectacular activities.

PUTTING I'S INTO ONE POD.

The ordinary newspaper reader is going to have his difficulties in distinguishing one of these "split I's" from anther. The nomenclature employed in these days is symptomatic of the new spirit of fraternity and courtesy which is embodied in Atlanta's handling of what ten years ago would have been a delicate situation. It was the Civil war that divided the Presbyterian church into "the Presbyterian Church in the U. S. A., and "the Presbyterian Church in the U. S." If one wants to know which is which, he must watch for that last "A." These names are technical and official, but are employed to do away with the suggestion of sectional division which is conveyed in the terms "Northern" and "Southern."

Nor does "United Presbyterian" mean the whole aggregation in one union. That is the technical name of the sturdy Psalm singers in whose honor the three simultaneous assemblies are singing only psalms during the present sessions.

Both the United Presbyterians and the Presbyterian Church in the U. S. are very conservative in their theology and in their methods. These two bodies have propositions for organic union confronting them. The sentiment on both sides is favorable to union. It is altogether probable that the negotiations will proceed to a successful issue, but they will not be consummated this year.

Both are rather afraid of their big brother, the Presbyterian Church in the U. S. A., and all talk of union with it is entirely tabooed at this session. It was quite understood when the invitation was extended for a pan-Presbyterian love feast in Atlanta that the subject of union between the Presbyterian Church in the U. S. A. and the Presbyterian Church in the U. S., should not be broached. The Presbyterians down this way are afraid of what they term the "theological laxity" of the larger organization. They do not like these heresy trials, or the thinking of which they are symptomatic. Moreover they are afraid of the "ecclesiasticism" of the largest of the Presbyterian groups.

A GLIMPSE OF CHURCH POLITICS.

It is frankly admitted by all who know conditions that there is a great deal of ecclesiastical politics in the Presbyterian Church in the U. S. A. This is illustrated by the "campaigns" that are afoot for the election of the moderator. There are four candidates in the field—two of them formidable and representative, to a greater or lesser degree, of the "liberal" and conservative wings in the church.

Rev. Dr. Maitland Alexander, distinguished scion of a famous Presbyterian family, himself the pastor of the First Presbyterian church of Pittsburg, Pa., one of the leading congregations in the denomination, is being urged for the moderatorship by his Pittsburg associates, and his support seems to be most outspoken among the "conservative" commissioners.

Running side by side with him in all discussions is the Rev. Dr. S. S. Palmer, pastor of the First Presbyterian church of Columbus, Ohio, long a notable figure in general Presbyterian affairs, although still a young man. Dr. Palmer is said to be the favorite of the more "liberal" element in the general assembly.

Rev. Dr. McKibben, of Lane Theological seminary, Cincinnati, and Rev. Dr. Howard Agnew Johnston, of Stamford, Conn., have also been publicly named for the position.

Because this is an insurgent season in religion as well as in politics, and because the leading church paper, The Continent, has been vigorously agitating against these pre-election campaigns, it is altogether possible that the assembly may rebuke the friends of these candidates by electing some man whose name has not yet been mentioned for the moderatorship. One regrettable feature of such a proceeding would be the implied reflection upon the present candidates, who are altogether men of standing and ability, and personally above political maneuvering.

The fact that neither the United Presbyterian assembly nor the assembly of the Presbyterian Church in the U. S., has any of this "candidating" is expected to exert a wholesome influence upon the largest of the three bodies.

SOME LIVE ISSUES.

A great many important subjects are to be up in both assemblies. The question of the home board and its functions is the most acute in the Presbyterian Church in the U. S. A. Action upon the "Elect Infant" clause in the Westminster Confession of Faith, and upon the question of continuing relations with the Federal Council of Churches in America, because of the latter's alleged theological laxity, are serious subjects which will receive the attention of the Presbyterian Church in the U. S.

Today in the pre-assembly conferences upon foreign missions, evangelism, education, theological seminaries and the laymen's movement, the delegates who have come in early will consider questions of practical service, rather than doctrine or administration.

The idea of a joint meeting of these long separated Presbyterian bodies has appealed to the imagination of the churches of America. It was a happy Atlanta inspiration. At present no man may forecast the consequences. Certainly it will result in closer relationship and greater efficiency.

It is a safe prediction that for many years the name of Atlanta will be advertised in religious circles as identified with an epochal event in the history of pan-Presbyterianism.

THE Journal publishes today the names of all the commissioners to the various Presbyterian assemblies, and the names of their hosts and their addresses. If you want to know who the commissioners are, what assembly they represent and where they can be found during the Presbyterian gathering, look them up in The Journal of this issue. They will be found on pages 9, 10 and 11.

WILSON CREATES BIRD RESERVE IN ARKANSAS

WASHINGTON, May 14.—President Wilson has by executive order set apart a large tract of land in Arkansas for use by the department of agriculture as a resort for a breeding ground for native birds. The tract is to be known as Walter Lake reservation.

THREE ASSEMBLIES AWAIT OPENING OF OFFICIAL SESSIONS

Will Meet Separately for Business, in Baptist Tabernacle and North Ave. and Central Presbyterian Churches

WILL MEET TOGETHER IN AUDITORIUM INFORMALLY

United Presbyterians Begin Work Wednesday P. M., Others Thursday A. M.—Informal Conferences Held

Wednesday evening, in Central Presbyterian church, the geenral assembly of the United Presbyterian church will be organized.

On Thursday morning the assembly of the Presbyterian church, U. S. A., will organize in the Baptist Tabernacle; and that of the Presbyterian church, U. S., will organize in the North Avenue Presbyterian church.

Each of the assemblies has it own "docket," or program of business. The dockets show the official business that will be transacted in each assembly. It is for that official business that the 1,500 commissioners have gathered.

There are being held, Wednesday, preassembly conferences, which are unofficial, but are quite interesting because of the subjects in which they are concerned, and there will be held popular gatherings, in the city auditorium, each evening.

The twenty-five commissioners of the Associate Reformed Presbyterian church may hold an adjourned synod meeting during the week.

The foregoing condenses as briefly as possible the story of the great Presbyterian gathering of which Atlanta now is the hostess for a week.

MUCH IMPORTANT WORK.

Important discussions almost without number will be heard in the conferences and the assemblies and the popular meetings. Nothing except what is important will be discussed, in fact.

But there stands out from the whole general program one subject in which two of the assemblies are interested very much and which concerns a great church membership—the subject of organic union between the United Presbyterians and the Southern Presbyterians (U. S.). A joint committee named last year has held several meetings and now is holding other sessions in advance of these assemblies, and its report will come up in the course of business before both of them. It will not be a report recommending or discouraging union, but a report of the basis upon which union can be attained. No one of the authorities expect the union to be perfected now. The report the first official expression on the subject, will become a matter for sober and elliberate thought among the leaders during the months to come; and the future alone can tell what result will attend it.

THE U. S. A. ASSEMBLY.

The greatest of the assemblies now gathering here—that of the northern church (Presbyterian U. S. A.)—is not concerned in this question of union; nor is the smallest of the gatherings—that of the Associate Reformed synod.

It is said that in the U. S. A. assembly the topics of graded lessons, of home mission policies, and of the doctrinal order of the Union Theological seminary in New York, will be among the most important that are considered.

In addition, the reports of the several special committees on these and other subjects (work in Europe, federal council of churches of Christ in America, evangelistic work, Sabbath observance, brotherhood, etc.) will comain much of interest and may lead to important discussions. The reports of the boards, too, are big with possibilities. The docket of the U. S. A. church shows much work ahead, from the convening at 10:30 Thursday morning to the con-

REPUBLICANS FILIBUSTER AGAINST WM. J. HARRIS

For Nearly Five Hours Senate Is Tied Up in Executive Session Without Action

(By Associated Press.)

WASHINGTON, May 14.—Senate Republicans began their first big fight on President Wilson's nominations last night when the appointment of W. J. Harris, of Georgia, as director of the census, succeeding E. Dana Durand, was taken up in executive session. For nearly five hours the senate played at cross purposes on the floor, the opposition without ever once entering into a discussion of the merits of the case.

The Republicans forced roll call after roll call on questions of procedure and in support of tactics which the Democrats termed dilatory. Motions to put the nomination over until tomorrow, until Friday and until next week were put and defeated an finally when the membership on both sides had dwindled away to almost nothing, adjournment was taken until today at noon with the Harris nomination still just where it was when the doors were closed shortly before 4 o'clock.

Republican leaders have served notice that they expect to keep up the fight against the confirmation of Harris until July 1, at least, when Mr. Durand has announced his intention to quit. Under the senate rules there is no question of their ability to filibuster to their hearts' content, and if they are willing to go into long executive sessions day after day they can prevent confirmation as long as their talking powers last.

During the debate an unsuccessful attempt was made to invoke the famous "Reed rule" by which members present in the chamber but not voting were counted in an attempt to disclose a quorum. This innovation brought forth more speeches and before the session ended most of the Democrats and a large part of the Republicans had spoken, although none touched upon the nomination itself.

A minority report against Harris was filed by Senator Townsend, and Senators La Follette and Cummins also were interested in the case. Senator Burton declared after the debate had proceeded for several hours that he was willing to review the history of census from the present day to the time of Babylon before he would see Harris confirmed. Mr. Burton was strongly of the opinion that Mr. Durand should have been allowed to serve out his term.

The Republican fight centers largely on the contention that offices requiring technical knowledge or scientific attainments should not be given as political rewards, but that qualification and experience should be the only yard stick.

Mr. Harris was chairman of the Democratic state executive committee of Georgia in the last campaign and is known as an original Wilson man. His appointment was one of the early ones to important offices sent in by President Wilson.

Republicans on the census committee served notice almost immediately after the appointment that they expected to fight his confirmation. Efforts were made by Democrats who wished to smooth out the difficulties, to have Mr. Durand retained in office until July 1 but ata meeting of the committee ten days ago the nomination was ordered reported by a majority vote, Senator Townsend, the only Republican present, voting against it, and throwing down the gauge of battle for the minority side.

The fight began immediately after the executive session was ordered at the request of Senator Bacon.

Such persistent opposition to any one presidential nomination has not been manifested in the senate for many years. Hundreds of former President Taft's appointments were held up during the closing day of the last session, but attacks were not directed toward any individual nomination, and at no time did the senate spend so many hours behind closed doors in the discussion of such appointments.

The last long struggle over a nomination recalled by senators was that over the appointment of Leonard Wood, now major general and chief of staff of the army, when he was jumped to the rank of brigadier general over the heads of scores of men who had served many years longer than he in the army. General Wood finally was confirmed after the senate chamber had overflowed with oratory against him and in his support.

TROUBLE EXPECTED OVER THE CINCINNATI STRIKE

Street Car Company Prepares to Resume Service With Non-Union Men

(By Associated Press.)

CINCINNATI, Ohio, May 14.—Serious trouble was anticipated today by city authorities, following the announcement that the Cincinnati Traction company had refused to recognize the recently organized union of its employes who have effectually tied up the transportation of the city since last Saturday by their strike.

The company today prepared to resume service on all of its lines, employing men who are not affiliated with the union.

The union men last night voted unanimously to break off all negotiations with the company until the union is recognized. Before the street car company attempted to resume its service today Chief of Police Copeland had squads of men stationed at all car barns and an emergency squad of 100 men ready to rush to the scene of any trouble.

Realizing the gravity of the situation, Mayor Henry Hunt last night issued a proclamation asking that citizens refrain from congregating in groups and from interfering with the operation of the street cars. He also promised police protection to the cars which the traction company intends to start.

Since the tie-up became effective Saturday motor cars and trucks of all kinds have been at a premium and it was believed that many owners of these vehicles have reaped enormous profits.

The first effort to operate street cars here since negotiations with the strikers were broken off, was made by the traction company today. Surrounded by police, three cars were started from the Avondale barns for the down town district. Police and detectives were stationed along the route. Mayor Hunt trailed the cars in his automobile.

Before the cvars started on the trip the police were instructed to act vigorously in case of trouble. They were told to meet force with force and to fight re with re.

AMERICAN VESSEL IS SEIZED BY CANADIANS

VANCOUVER, B. C., May 14.—Seized for poaching in Canadian waters the American halibut schooner Valiant, Captain John Courage, of Seattle, was towed into Vancouver harbor last night by the government patrol boat, William Jolliffe. Captain Newcombe, of the patrol, says he sighted the American vessel lying a little over a mile inside the three mile limit.

He immediately gave chase and after a run covering six miles the Valiant heaved to Captain Courage and his four seamen were brought to Vancouver. He is alleged to have denied that he had fish on board, but when the holds were torn open live halibut were found. The vessel now is lying in English bay awaiting proceedings for confiscation.

The Valiant is an eighteen-ton gasoline schooner, carrying two dories. She is owned by the Pacific Coast Net and Twine company. The Valiant is the fourth American fishing vessel seized for poaching by Canadian fishing patrols in recent years.

MRS. LEOLA NISBET FLOYD IS DEAD AT EATONTON

EATONTON, Ga., May 14.—Shortly after noon yesterday Mrs. Leona Nisbet Floyd died at the home of Mr. and Mrs. Brevard Nisbet on Madison street. Mrs. Floyd's death comes as a great shock to Eatonton and a wide circle of relatives and friends after an illness of about two weeks, death resulting directly from heart trouble following other complications. Since the death of her husband, James B. Floyd, of Savannah, last fall, she had made her home in Eatonton and had only recently returned from an extended visit to Savannah and St. Augustine.

Mrs. Floyd was a daughter of the late Dr. Reuben Nisbet, and granddaughter of Eugenius A. Nisbet, writer of Georgia ordinance of secession. She was a woman of unusually lovely character and universally beloved. The remains will leave Wednesday for interment in Bonaventure cemetery at Savannah on the Floyd family lot.

SANTA BARBARA VOTES TO OUST LIQUOR TRADE

SENATE REPUBLICANS FIGHT FOR HEARINGS

G. O. P. and Moose Senators Insist on Tariff Hearings Before Finance Committee

(By Associated Press.)

WASHINGTON, May 14.—Senate Republicans were again ready today to prolong consideration of the public hearings issue they have raised as the opening wedge in their fight on the Underwood tariff bill.

Senator Penrose's amendment to Senator Simmon's reference motion has now become the Penrose-LaFollette amendment, the Pennsylvanian having accepted a proposal that manufacturers be required to answer sixteen questions relating to production and transportation costs here and abroad and the percentages of duty that represent cost differences and profits.

Democratic leaders deny they have any fear of letting the public hearing amendment come to a vote. It was in the midst of the debate yesterday that Senator Bacon moved for an executive session, and that gave rise to rumors that the majority wanted more time to rally opposition to the Republican attack. The Democrats' point, however, to the vote of 48 to 34 on the motion for an executive session as an indication of strength against open hearings.

When the discussion was resumed at noon it seemed unlikely that a vote would be reached.

DR. JAMES L. HOWE TO ADDRESS LOCAL CHEMISTS

A regular business meeting will be held during the course of the evening.

Dr. Howe will be the speaker of the evening. His address will be purely scientific on the subject "Old Chemical Theories in New Lights."

FAYETTEVILLE PLANNING TO BUILD CITY HALL

FAYETTEVILLE, Ga., May 14.—The city council of Fayetteville have just taken a deal in which they have purchased a vacant lot on which they expect to erect a city hall and guard house. The price paid was $55.50 per front foot. This property adjoins the county prison and faces the public square.

The mayor and council expects to erect a handsome building upon this lot in the near future, and the citizens of this place are to be congratulated upon the progressive spirit shown by the authorities.

MRS. LONGSTREET OFFERED A $10-A-DAY POSITION

Former Union Soldier of West Virginia Offers Ga. Woman $3,600 Per Year

WASHINGTON, May 14.—Denied reappointment as postmaster at Gainesville, Ga., by the Democratic administration, Mrs. Helen D. Longstreet, widow of the famous Confederate general, has been offered a position by a former Union soldier. Mrs. Longstreet said that Colonel Albert E. Boone, of Charlesburg, W. Va., had offered her a place in his office at $3,600 a year.

"If I find that I feel fitted to do the work in Colonel Boone's office," she added, "I shall accept his offer in the same spirit in which General Longstreet accepted a commission from President Grant when he found himself an outcast in the land whose battle flags he had followed with supreme devotion."

MORTON P. HARVEY AT THE MONTGOMERY

Mr. Harvey came to Atlanta and told the management of the Montgomery Theater that he could sing and showed them notices and programs which proved that he had worked in every state in the union and in some of the best places in each state.

What the papers say and what the public think are sometimes not quite the same, but the patrons of the Montgomery were given a treat in Mr. Harvey's singing.

He sang a song of Chauncey Olcott's and followed that with some of the old songs, including "Annie Laurie," and closed with a lively rag number such as are so popular with the younger generation today. Extreme good judgment is exercised by this singer in the selection and arrangement of his numbers and no matter what the song may be he places the enunciation first.

Mr. Harvey goes to New Orleans for an extended engagement, but expects to return to Atlanta some time during the fall.—(Advt.)

PLAN TO SPLIT FLORIDA IS BLOCKED BY RULING

TALLAHASSEE, Fla., May 14.—The plan to divide Florida into two states so as to add two Democratic senators to the national congress met with a setback today when the attorney general handed down an opinion that it was contrary to the federal constitution.

He meets the West Virginia precedent by saying that that was a war time measure and wholly contrary to the federal constitution. In the case of North and South Dakota he points out that that was creating two states out of a territory.

NOW FOR THE NEW ANSWER BOOK.

The Journal's new answer book is now ready and is going out to all those who have been waiting so anxiously for one.

And no wonder the Contestants were anxious for it.

Because it gives them the right to ten answers with each picture and they only need one of each picture to submit these ten answers.

The answer book is arranged so that it is not only convenient for contestants to submit answers, but it is also the most economical way to exercise your right to extra answers.

Under the old plan you would need 750 pictures and coupons to submit that many answers, and they would cost you $15.

The Answer Book will only cost you 50c at The Journal Office or 60c by mail, and all you will need is one of each picture, or 75 in all, yet you will have the right to ten answers on each prize picture.

That gives every contestant a fair chance to exercise their right to ten answers on each picture.

Use the Answer Book Coupon if you wish us to mail it to you.

If you have the first thirty-five pictures you can give your new ones to some good friend who will appreciate them.

MR. W. W. DRAKE IS CALLED BY THE REAPER

Atlanta Pioneer Dies at Private Sanitarium in Atlanta

The friends of Mr. W. W. Drake will be grieved to learn of his death Tuesday at a private sanitarium.

Mr. Drake was born in Midway, Ala., on September 8, 1865. His father was Dr. William Green Drake, who during his lifetime was a prominent physician of Atlanta. All of Mr. Drake's boyhood days were spent in this city. At an early age he entered the hardware business and for sixteen years was prominently identified with the Clarke Hardware company. About ten years ago he moved to Denver, Col., and from thence to Spokane, Wash., where he attained prominence and distinction in the building hardware business on the Pacific coast.

Mr. Drake married Miss Pink Hunnicutt, of Atlanta. He is survived by his wife and one son, Mr. W. C. Drake, of Atlanta, and a sister, Miss Mabel Drake, and a brother, Mr. Loyd Tate, of Alabama.

Mr. Drake's entire life was one of gentle kindness and love. His was a soul of gentlemanly honor and to know him was to love and admire him. By his courtesy and fairness in the business world he won many friends, who will remember him for his rare and unusual honesty of character.

The funeral will take place Thursday morning at 10:30 o'clock from his late residence, 309 Spring street, and interment will be private in Oakland.

NEW THEORY FAILS TO CHANGE COURSE OF MURDER PROBE

(Continued From Page 1.)

simply held it up pending the accumulation of further evidence.

STILL AFTER BURNS.

Attorney Thomas B. Felder still states that he is confident that he can bring William J. Burns here to work toward the solution of the Phagan mystery.

Mr. Burns is still in Europe, and according to a wire just received by Colonel Felder from his son, Raymond Burns, the famous detective is not expected back in this country until about June 1.

However, Mr. Felder declares that if satisfactory financial arrangements can be made, a man from Burns' New York office will immediately come to Atlanta to take up the hunt for Mary Phagan's slayer, and the great sleuth himself will hasten his return from Europe, and come directly to this city to personally supervise the search.

Mr. Felder says that he is in daily communication with Burns' New York office, and hopes to conclude the financial arrangements by Friday.

Mr. Felder states that statements attributed to him that Burns would arrive in New York Tuesday are erroneous.

HANDWRITING CONSIDERED.

A newspaper man who holds several specimens of Mary Phagan's handwriting has been summoned before the solicitor Wednesday.

This has occasioned the rumor that mysterious notes supposedly written by the dead girl have been found and that they may give a new turn to the investigation.

Several friends of Mary Phagan have been called in the past to identify mysterious notes formerly in the possession of the detective department.

The matter of handwriting is undoubtedly playing an important part in the probe, and it is said that the state does not now adhere to the theory that the negro, Newt Lee, wrote the two notes found near the body of the slain girl in the basement of the National Pencil factory.

Many witnesses were examined Tuesday by the solicitor general and stenographic reports of their statements were made. Detectives Starnes and Campbll assisted Mr. Dorsey in the examination of the witnesses, and they were in his office practically the entire day.

Among the witnesses was Mrs. May Barrett, an employe of the factory who, Miss Clarietta Hall testified at the inquest, was on the fourth floor of the factory shortly before noon, when she (Miss Hall) went up to deliver a message to the two men who were at work there.

From sentences dropped by Mrs. Barrett as she left the solicitor's office it would seem that the conference was not satisfactory, although Solicitor Dorsey would make no statement about it.

THEATERS

(Criticisms of festival performances at the local theaters are written by members of The Journal staff. All other matter appearing in this column is furnished by the theater managements.)

ATLANTA—"Are You a Mason?"
FORSYTH—Vaudeville.
BIJOU—Vaudeville and Pictures.

There isn't anything that disappoints at the busy Forsyth this week. The bill is a corking good entertainment from the opening act, right straight on through and including the pictures.

There has never been a greater favorite in so short a time than Paul Dickey, the star of "The Come Back." It is plausible that some people have been attracted by the announcement that this chap was one of the star football players at Ann Arbor, but those who have seen him care little about that achievement now. They have seen him act and have been thoroughly entertained.

Dickey is just the sort of headliner that can and does make things hum. He has a splendid support and the act is one of the real winners of the season.

The Apolo Trio present the greatest novelty of the present season. These men are remarkable specimens of physical perfection. They are models of the famous Greek and Roman gladiators. They pose in reproduction of famous statues, and with their bodies completely varnished with a preparation of bronze look like the real goods. There are others on the bill that have helped to make it a genuine treat in more than one respect.

Attendance is crowding the record of the house, and advance sales indicate the usual capacity testing gatherings all the rest of the week.

The headlines for next week will be Ed Gillette's Adam and Eve the smartest monkey actors that have been exhibited. These fellows play ten pins and do all sorts of stunts that are wonderful. Josephine Dunfee the singing comedienne is on the bill and Gallagher and Fields in the "Battle of Bay Rum" will supply the comedy.

"Are You a Mason?" as played by Miss Billy Long and company at the Atlanta theater, is furnishing plenty of laughs to the patrons who are crowding the theater at every performance, and the matinee Wednesday afternoon promised to be the biggest of the engagement. There will be no evening performance Wednesday, as the company must give way to graduating exercises. There will be performances, however, every evening the rest of the week with the usual matinee on Saturday. The matinee devotees who have seen Miss Long in character parts will appreciate the beautiful gowns she wears in "Are You a Mason?"

Seats went on sale Wednesday afternoon for "The Deep Purple," which is to be the bill next week. This strong drama by Paul Armstrong has never been played in Atlanta and the stock company is sure to give a fine presentation. Matinees will be given Monday, Wednesday and Saturday.

EAGLES ASSEMBLE AT SMOKER AND BANQUET

The Fraternal Order of Eagles held a smoker and Dutch supper for its members Tuesday night in the club rooms on the top floor of the Steiner-Emery building.

Over 200 members were present. The rooms were opened so as to make one big section down which a long line of tables was placed. The club rooms have been decorated recently and they presented an attractive appearance.

The present officers of the Eagles are John Y. Smith president; E. H. McDonald vice president; W. B Routh chaplain; H. A. Fisher secretary; J. J. Barnes, Jr., treasurer, and S. R. Green, steward.

TILE COMPANY GOES TO COURT FOR PAVING JOB

Injunction Granted One Concern to Stop Another From Work on Certain Street

A temporary injunction was granted the Lee Tile and Construction company by Judge J. T. Pendleton, in the superior court, to restrain the Cement Tile and Stone company and the city of Atlanta from laying tile sidewalks or curbing on the south side of Williams mill road.

The petitioner claims that Monday, when its workmen started to lay sidewalks as per contract with A. H. Stephens and J. H. Falks, and with proper authority from the city, that they were shocked to find that employes of the defendant company were already on the job.

It is then alleged that the city has contract with the defendant company by which said company does all such work when the property owners fail to have same attended to within a stated time. It is further stated that both of these property owners had been notified and their time had run out, but that their time had expired because the office of the chief of construction delayed the matter of granting plans to the Lee company, agents for the property owners.

If the defendant company is allowed to complete the work the petitioners allege they will be out of a job and the property owners will have to pay the city an assessment for work which they have already contracted with another concern.

A hearing of the complaint is set for May 17, and until that time all work has been halted.

CHICAGO PREACHER PROPOSES NEW DECLARATION OF FAITH TO PRESBYTERIANS OF UNITED STATES

Rev. W. S. Plumer Bryan Has Formulated Definite Statement of Presbyterian Beliefs on Which He Believes All Three Assemblies Can Unite

Rev. W. S. Plumer Bryan, pastor of the Presbyterian Church of the Covenant, Chicago, and one of the prominent men in the assembly of the Presbyterian church, U. S. A., which opens at the Baptist Tabernacle Thursday morning, will submit to that assembly a declaration of faith which in a sense is new, and to that extent important.

While the declaration is not a departure from the old established faith of the Presbyterian church, U. S. A., it is a definite statement of some articles of the faith which are rather vaguely formulated at the present time.

The declaration is prompted, among other reasons, by the social program adopted by the Federal Council of the Churches of Christ in America, which met recently in Chicago.

WHAT DR. BRYAN SAYS.

In a printed circular containing the declaration, Dr. Bryan says:

"The recent session of the council was marked chiefly by its emphasis on the social problem, and the action taken has led many to question whether the churches, the Presbyterian churches among others, were accurately represented in the pronouncements of that body, especially as to the avoidance in the papers and in discussions of those cardinal truths of the gospel which are the real bond of union among the churches. Much writing has been done recently to prove that the council met all reasonable expectations concerning it. But are the churches content with the place given to the gospel in the social program of the council, in which program are sixteen items, printed in capital letters, for which 'the churches must stand,' yet not one of which is Christian in any distinctive sense? It is for the assemblies at Atlanta to speak for the churches which they represent. Doubtless there are differences of opinion on this subject, but surely the churches which believe the same Bible, and hold practically the same confession of faith, and have practically the same form of government, are agreed sufficiently to speak on this subject to the world out of one heart and with one voice."

DECLARATION DISTRIBUTED.

Dr. Bryan has submitted his declaration in advance to a number of commissioners in all three assemblies, and they have cordially approved it.

The opinion is expressed by commissioners that the declaration, if proposed to the United assembly and the U. S. A. assembly will certainly be adopted, and that the U. S. A. assembly will probably adopt it.

THE DECLARATION.

The declaration reads as follows:

"That man does not live by bread alone, but by the Word of God, which liveth and abideth forever, and which is infallibly revealed in the Scriptures;

"That man's greatest need is to know God and to be at one with Him through His Son, Jesus Christ;

"That man has sinned and come short of the glory of God, and is subject to eternal death;

"That man can be recovered from sin and death only by the love of God, unmerited, overflow, and manifested in the Sacrifice on the Cross;

"That man's first step towards a better life is the resolve, I will arise and go to my Father, and will say unto Him, Father, I have sinned against Thee;

"That man's new life begins with the forgiveness of his sins through the sprinkling of the blood of Jesus and the renewal of his nature by the Holy Spirit, which new life manifests itself in a marked change in his outward conduct;

"That truth is an order to godliness, and that godliness is profitable in all things, having promise of the life that now is, and of that which is to come, producing not only piety and devotion towards God, but kindliness and sympathy towards men, honesty and purity, courage and endurance, industry and invention;

"That the charitable, philanthropic and progressive movements of the day owe their beginnings and their growth chiefly to those men and women who fear God and keep His commandments, whose God is the God of their whole life;

"That, beyond the civic and the social, lies the eternal and the heavenly, as the true goal of the human spirit, and that our noblest duty is to look and to labor for that city which hath foundations, whose Builder and Maker is God;

"That these and like truths, committed of God to the keeping of His Church, are so potent for human good that Christian men, both individually and collectively, must, at all costs, maintain and proclaim them, and apply them to the present needs of men, lest, in the great day, they be found unfaithful stewards of the mysteries of God, and be themselves cast out of the Kingdom;

"That Christian fellowship and co-operation thrives upon and is nourished by these and like truths, and that any religious fellowship which requires the denial or the avoidance or even the dilution of these truths is delusive and dangerous."

C. L. REED RUN DOWN BY J. D. HAYES' AUTOMOBILE

C. L. Reed, of Buckhead, was run over at Five Points Monday night by an automobile belonging to J. D. Hayes, of Hayes Brothers Tailoring company, 9 Peachtree street. The young man's head was gashed, and it was found that he was suffering from a fractured leg. He was taken to the Grady hospital.

Mr. Hayes was docketed with a case at police headquarters, and released when he gave bond for $200 for his appearance in police court when Mr. Reed's injuries will permit him to appear before the recorder.

Eye-witnesses stated that it was their opinion the accident was unavoidable, and that the machine was not going over fifteen miles an hour. Mr. Hayes had attended an Epworth league meeting and was taking some ladies and gentlemen home when the accident occurred.

"GREAT WHITE WAY" FOR CONFEDERATES' REUNION

Chattanooga Prepares to Give Veterans Rousing Welcome at Annual Gathering

CHATTANOOGA, Tenn., May 14.—Chattanooga's "Great White Way" whose completion was rushed on account of the Confederate reunion, is now in operation the lights having been officially turned on Tuesday night following which a general celebration with a brass band was held.

In addition to the great white way which stretches practically the entire length of Market street, the main business thoroughfare, special illuminating projects are being carried out on all the principal streets, while the town of St. Elmo will erect a special arch of welcome at the foot of Lookout spanning the car tracks and roads where they enter the valley proper.

Plan to Greet G. A. R.

CHATTANOOGA, Tenn., May 14.—Chattanooga now has on her hands two undertakings each of which is as large as any ever undertaken by any of her sister cities of the south. The first is the annual reunion of the Confederate veterans and the second is the annual encampment of the G. A. R. The first, of course, will be held May 27, while the latter will take place some time in September. R. S. Shapp, former chief postoffice inspector of the United States has been placed in charge of the G. A. R. entertainment committee which has already been organized and begun work. The entertainment of the G. A. R. will be practically as great a project as that of the Confederate veterans. The meeting here is the first ever held by the body south of the Mason and Dixon line.

Knights of Columbus Delay Opening of Their New Home

THIRD REPORT ON PROBE OF U. S. STEEL INDUSTRY

Bureau of Corporations Sends Part Three on Cost of Production to President

(By Associated Press.)

WASHINGTON, May 14.—Part Three of the report of the bureau of corporations on its extended investigation of the steel industry, dealing particularly with the cost of production, was submitted to the president today by Acting Commissioner Francis Walker. A discussion of the vast difference between "book costs" and "net costs" featured the report, figures being given to demonstrate that iron and steel manufacturing companies usually include in their statements of costs of production large profits paid to subsidiary ore and transportation concerns.

For Bessemer steel rails, for instance, the report stated that the average book cost of the United States Steel corporation was $21.53, while the actual net cost, excluding intercompany profit on transportation and material, was only $16.67. Similar differences were shown in the manufacture of other steel products.

Parts One and Two of the bureau's report were submitted during the Taft administration by former Commissioner Herbert Knox Smith.

SENATOR MAY TAKE HAND IN CASE OF J. F. HOUSTON

PANAMA, May 14.—A cablegram was received here yesterday requesting postponement of the trial of J. Frank Houston, of Kentucky, a Panama canal worker who shot and killed his friend, Harry Stern, of Hot Springs, at Gatun, on February 8, because of jealousy arising from correspondence which passed between Stern and Mrs. Houston.

The request for a postponement was based upon the fact that under the canal zone act, trial by jury in the zone is denied. Inasmuch ha Houston was convicted on May 1 and sentenced on May 8 to ten years' imprisonment, the request was made too late for notice of appeal to the supreme court to be given. In the meanwhile the prisoner has begun serving his sentence. It is understood here his lawyer has taken steps to interest a United States senator in the case.

GOV. BROWN TO SLEEP IN ROOM OF BOYHOOD

Governor and Mrs. Brown will be the guests of honor Wednesday evening at an informal reception which will be tendered to them in Milledgeville by the faculty and students of the Georgia Normal and Industrial school. They left Atlanta at 12:30 p. m. and will return Thursday evening.

Wednesday night the governor will sleep in the same room of the old executive mansion at Milledgeville which he occupied during the eight years that his father, the late Senator Joseph E. Brown, was governor of the state.

For eight years—from 1857 to 1865—Governor Brown's father was the chief executive of the state, and during that period the capitol was located at Milledgeville. The old mansion is located on the campus of the Georgian Normal and Industrial school and is kept in an excellent state of repair.

BRYANT FOLSOME HELD GUILTY OF MANSLAUGHTER

QUITMAN, Ga., May 14.—Bryant Folsome was found guilty late yesterday afternoon of voluntary mansaughter by the jury which has bleen trying the case. Folsome shot andi killed David Wadron during the Christmas holidays, accusing him of having sent an insulting post card to his sister.

Folsome apologized for the incident, and it was thought the affair had been settled amicably.

Judge Thomas has not passed sentence yet.

FIFTY-TWO EASTERN ROADS ASK INCREASE IN RATES

Interstate Commerce Commission Hears Appeal to Reopen Famous Case "No. 3400"

(By Associated Press.)

WASHINGTON, May 14.—Eastern railroads took the first step towards an attempt to increase their freight rates, when representatives of fifty-two lines east of the Mississippi and north of the Ohio and Potomac conferred today with the interstate commerce commission on a formal application to reopen the "eastern advance case," which was denied against the railroads two years ago.

The application in effect is to rehear the request for increases which the commission denied about two years ago. The old application asked for a uniform 5 per cent advance on all through freight on the basis of the New York-Chicago rate. The case was a noted one, commonly known as "No. 3,400."

Today representatives of the fifty-two eastern railroads concerned in the old case, appeared before the entire membership of the interstate commerce commission, to ask rhearing, which if granted, would substantially be an application for a 5 per cent increase.

At the conclusion of the conference it was announced that the commission had received the petition and would take it under advisement.

SUFFRAGETTES SEND BOMB TO MAGISTRATE

Judge Bennett, Who Is Hearing Charges Against Leaders, Escapes Being Blown Up

(By Associated Press.)

LONDON, May 14.—A businesslike bomb addressed to Henry Curtis Bennett, the police magistrate, who is hearing charges against the suffragette leaders, was delivered by a letter carrier at Bow street police court today. The package was marked "immediate," but disliking the looks of it, the cautious court officer took it outside and plunged it into a pail of water.

When the package was opened it was found to contain a tin tobacco box, bound with wire and filled with gunpowder, shot and a cartridge. Attached to the cap end of the cartridge was a nail, which, if it had been struck, would have fired the bomb and exploded its contents.

Suffragette bombs were found today in one of the passenger cars of a train running between Kingston-on-Thames and London, on the Southwestern railway. This makes the third outrage of the kind on the same line within two months. On the train's arrival at Waterloo terminus, the conductor noticed in one of the compartments three parcels which aroused suspicion.

On investigation two of them were found to contain tin canisters filled with combustibles and wrapped in suffragette placards. No explosion occurred and the bombs were handed over to the police.

A militant suffragette "arson squad" destroyed a large untenanted residence, "The Highlands," at Sand-Dale-on-the-Sea, near Folkestone on the English channel, last night. Post cards addressed to the "Dishonorable Prime Minister," and to the "Dishonorable Reginald McKenna, home secretary," were left about the premises. There was a post card bearing the words, "We hope this is not a poor widow's house."

Striking evidences of the extensive operations of the militant suffragettes and the bad effort upon the women's cause of the outrages committed by them was given today on the resumption of the hearing at Bow street police court of the charges against the suffragette leaders. They are charged with the infringement of malicious damage to property act.

Those who occupied the prison inclosure were Miss Harriet Rebecca Kerr, Miss Agnes Lake, Miss Rachel Barrett, Miss Beatrice Saunders, Miss Annie Kenny, Mrs. Laura Lenn and the analytical chemist, Clayton.

The case against "General" Mrs. Flora Drummond was postponed until July, owing to her illness.

Letter carriers and postoffice officials testified as to the great damage done to the mails by chemicals and other fluids poured into the public letter boxes.

BUFFALO BILL'S ADVANCE CAR DUE HERE MONDAY

Buffalo Bill's advertising car No. 1 is due to arrive in this city on Monday, May 19, via the N. C. and St. L. railway, and will remain on the side track near the station until Tuesday and country for fifty miles in every direction are thoroughly billed.

This modern edition of the circus is a marvel of compactness and elegance, embracing as it does a press bureau, with agents, writers, cuts, copy and illustrations equal to the best-equipped newspaper office. It also carries a supply of all kinds of printing, posters, programs, circulars and lithographs sufficient to advertise a week of one-day stands, and this abundance of material is judiciously distributed throughout the country from house to house and on the billboards. The car is seventy feet long, and is divided into compartments to accommodate everything required. It contains a business office, buffet, stateroom, Pullman berths for the workmen, lockers, closets and drawers for various kinds of advertising matter; also a steam boiler for making paste, and a baggage room for cans, brushes and tools of trade. Buffalo Bill and Pawnee Bill always believe in the biggest and best of everything, and their big show will be here on Monday, June 9.

DEMURRAGE BUREAU NAMES HASKELL'S SUCCESSOR

F. M. Hardin was Tuesday elected manager of the Southeastern Demurrage Bureau to fill a vacancy caused by the resignation of J. C. Haskell. The election took place at an annual meeting of the bureau, at which over twenty delegates were present. During the meeting many matters of a routine nature were discussed.

EDUCATIONAL CONFERENCE OF U. S. ASSEMBLY

MISSION BOARD PLEADS FOR GREATER LOYALTY

Southern Baptists Are Asked to Cultivate More Denominational Spirit

ST. LOUIS, May 14.—The annual convention of Southern Baptists, with delegates present from all the southern states and returned missionaries from Asia, Africa and Spanish-America, was to meet this afternoon in the Third Baptist church.

Committee meetings incident to the assembling of the Woman's Missionary union an auxiliary of the Southern Baptist church were held throughout the day.

The convention today was to elect officers appoint committees and hear reports of the boards of foreign and of home missions and of the Sunday school board.

REPORT ON MISSIONS

A plea of denominational loyalty is made in the report of the board of home missions submitted to the Southern Baptist convention today.

"Loyalty to one's denominational groups" says the report "is decried in many quarters and reverence for Scripture teaching and obedience to it is ignored in these quarters. If Baptists are to hold their prestige and influence in lifting up our southern civilization they must be strong enough to withstand such tendencies.

"If the clamor for the weakening of denominational life should succeed, it would not result in a union church, but in scepticism. If our people are brought to think that things are worthless for which their fathers sacrificed, they will come to think that all the rest is worthless.

"As we contemplate the great problems that the south confronts, the negro, materialism, 22,000,000 people not in any religious body the fearful cheapening of human life, the more than 2,000 churches that have no houses of worship—as we think of these things, we long to be empowered to project a program that shall be positive, courageous, adequate and triumphant."

The Home Mission board reports that it closed the year's work free from debt.

SUNDAY SCHOOL REPORT.

Emphasis of the doctrinal character of Christianity is urged in Sunday school work in the report of the Sunday school board, submitted to the Southern Baptist convention today.

The Sunday school lesson committee's work in this connection and its work in graded lessons for the intermediate department is commended.

Sleuths Hunt Spy Who Stole Plans Of U. S. Battleship

(By Associated Press.)

WASHINGTON, May 14.—Detectives investigating the theft of plans for the electrical wiring of the dreadnaught Pennsylvania declared today that publication of the "leak" probably would hamper their work.

The department of justice has several likely clews which may lead to arrests. Nothing so far has developed, it is said, to directly connect any foreign nation with the suspects.

The fact that the ordnance and steam engineering bureaus of the navy department have been missing plans and documents relating to American vessels and their armament has created alarm among officials, and will undoubtedly cause the military authorities to surround the war secrets of the United States with greater safeguards.

None of the missing papers, officials reiterated today, was important or contained secrets of advantage to foreign nations. Some officials were inclined to believe the losses probably were the result of clerk's carelessness.

The second set of plans of the new dreadnaught Pennsylvania to be stolen from the bureau of steam engineering were taken between the evening of Saturday, March 22, and the following Monday. The plans were duplicated of those stolen March 4. Secretary Daniels today reiterated that they would be of no particular value to any one seeking naval information not generally made public as they contained no military secrets.

NOBLES TO MEET IN GATE CITY DURING THE SPRING OF 1914

(Continued On Page 3, Col. 1.)

THE PARADE.

Last night, for the second time in one day, the brilliantly bedecked caravans of the Ancient Arabic Order, Nobles of the Mystic Shrine, wound their way through the streets of Dallas when representatives of more than 100 temples and 40 Arab patrols, with their bands, passed in grand review before Imperial Potentate W. J. Cunningham, of Baltimore.

To the patrols who paraded yesterday morning as an escort to the imperial potentate and officers of the order, last night was added thousands of members not in uniform. Again spectators lined the streets and cheered the modern "followers of the prophet," giving again their oft-repeated welcome.

The first business session was held yesterday and Imperial Potentate Cunningham made his formal report at an open meeting held in the Scottish Rite cathedral. The order now has 133 temples, his report stated, and on January 1, last, the membership was 185,446, a net gain for the year of 12,790. He said the funds of the imperial council on hand March 1 were $114,421.

Monday afternoon newspaper men who are here with the Shriners were entertained by the Dallas Press club with a "klatsch." More than 100 writers attended.

Charters for new temples were granted by the imperial council to San Diego, Cal.; East St. Louis, Ill.; Parkersburg, W. Va., and Nashville, Tenn. Dispensations were granted Shreveport, La., and Halifax, Novia Scotia.

DARK HORSE.

Buffalo, N. Y., was talked of by some of the Shriners today for the 1914 convention because of the keen rivalry between Atlanta and Memphis. Both the southern cities, however, claimed pledges enough to win.

SUNDAY SCHOOL HEADS DISCUSS BIG CONTEST

Atlanta Superintendents' Congress Hears Details of the Christian-Baptist Contest

The details of the recent contest between the Sunday schools of the First Christian church and the Second Baptist church were told to the Atlanta congress of Sunday Scool Superintendents, Tuesday evening, in the Central Presbyterian church, by Superintendent C. V. LeCraw, of the First Christian, and Superintendent John A. Spalding, of the Second Baptist.

The accounts of these two leaders in the big engagement furnished the topics which the other superintendents discussed during the remainder of the brief meeting. The program began at 6:30 o'clock with a delicious supper prepared by the ladies of the Central Presbyterian congregation. The session adjourned at 8 o'clock. It was the regular meeting for May, and was held in the Sunday school room of the church. The June meeting, last until September, will be held in the Wesley Memorial church.

Six Autos Smash In One Wreck In City of New York

NEW YORK, May 14.—Six automobile parties were wrecked in a peculiar series of accidents during the night near the northernmost entrance of Central park. One car crashed into another, a second into a third, a third into a fourth, and two machines plunged into the tangle formed by the other four. Of the dozen or more persons involved in the wreckage, none was dangerously hurt.

In still another accident a brougham in which William Woodward, president of the Hanover National bank, and Mrs. Woodward, who was one of the Cryder triplets, were riding, was struck by an automobile, bowled toward the curb and overturned on Madison avenue. The driver plunged, headlong, over his horse and struck the street on his face, unconscious, but Mr. and Mrs. Woodward escaped with only a few scratches and bruises.

Persons who have taken it, improved, gained weight, exhausting night sweats stopped, fever diminished, and many recovered. If you are interested to know more about it, we will put you in touch with some who are now well. You can investigate and judge for yourself. Read of Mrs. Govert's recovery:

Griffith, Ind.

Gentlemen: About September 30, 1908, my mother-in-law was taken sick with Catarrhal Pneumonia, which developed into Lung Trouble. In January, when Rev. Wm. Berg, of St. Michael's Church, at Schererville, Ind., prepared for her death, he recommended that I get Eckman's Alterative, and see if it would not give her some relief. The attending physician declared she had Consumption and was beyond all medical aid. So I immediately had Rev. Wm. Berg to send for a bottle. Exactly without hope for recovery, I insisted that she try the Alterative, which she did. I am glad to say that she soon began to improve. Now, she works as hard as ever, weighs twenty pounds heavier than she ever did before she took sick, and is in good health."

Atlanta New York Paris

An Elegant Exposition of the New Fashions in Summer Dresses

In which all the New Fabrics and all the New Styles come in for proper appreciation

We might, and very properly, term this an opening. It shows all the credentials of such an event. It holds a greater number of interesting features than any formal opening Atlanta has ever been invited to at this season, chiefly because there have been evolved this season more interesting fashions and then because our dress buyer, just returned from New York, has outdone himself. He chose with a free hand, lavishly, in a way that, now that the dresses are here, insures every woman a dress to her liking. As he very forcibly puts it "This is the greatest line ever brought to Atlanta" and the confident way he emphasizes it is very impressive; but you shall decide that.

In this display are

Simple Morning Dresses, More Elaborate Afternoon and Party Dresses, and Still More Elaborate Evening Dresses

But they are not the dresses that former summers have brought!

The materials are different, the styles are different, and, we warrant, to your pleasure.

The cry is for novelties. Even the least expensive little frocks have the appearance of exclusiveness. It may be a matter of a bit of colorful embroidery, or the use of net forming a yoke, or the drape of a skirt or the way a sleeve is set in, or it may be due to the fact that the waist is in some dark shade and the skirt white.

For morning and street wear there are beautiful dresses of crepes, of linens, of ratines, of voiles. And each of these is divided into many kinds---plain and figured crepes, ramie and French linens, striped checked and plain ratines and the like in seemingly endless variety.

Among evening dresses, wherein the Paris touches become more numerous, the voiles and cotton crepes claim first attention. They are plain, they are embroidered, they are in stripes and checks and "snowflakes". And among these you will find the handmade tucks, the hand embroidery and the wonderful shadow, cluny, macrame and Venetian laces that women delight in.

But reading of these things will not suffice the woman whose summer wardrobe is first in her thoughts. See!

We would but emphasize here the elaborate way we have gone at the dress question this summer.

There are more and prettier dresses to choose from than you have grown accustomed to expect.

Prices Go Very Gradually from $5 Through $7.50 and Up and Up to $25, $30 ard $35

And there will be many a surprise in store for you, too, after you have admired a dress to note the price ticket. Dresses look to be worth more than their price.

But again we say---See!

A Fine Buy Brings $25 Dresses at $18.50

The material is crepe that holds a high place among the materials fashionable this season.

You will see at once that they are $25.00 values. Dainty, altogether charming!

One style is of white crepe with a wide band of Dresden crepe—several colors—at the bottom of the skirt, outlined with a fold of solid color to match in with the Dresden coloring; the same colors show in the collar and cuffs and the little vest and the satin belt, which is set off with a pearl buckle.

Not enough of these to make delays safe, just a little lot very fortunately bought.

New Spring Coats and Wraps

For afternoon and evening wear with light dresses, the high novelty right now, and an inexpensive novelty, is the Terry Cloth Coat.

These are in plain shades—usually light—and in two-toned effects.

You will like them.

They are short, "blousy" affairs priced at $8.75 to $15.00.

Then come the richer and more luxurious moire and charmeuse wraps in white, black and colors and the ratines in colors and the white serges in splendid variety of trimmings and lengths.

These from $15.00 to $35.00.

And the automobilist and traveler will enjoy the preparations made for them.

Splendid linen coats at $3.95 and $4.95. Mohair, tongee and rajah coats at $7.50, $10.00 to $18.50.

COTTON MARKET STEADY; PRICES SLIGHTLY LOWER

Market in New York Closed 3 to 5 Points Down From the Previous Close

(By Associated Press.)

NEW YORK, May 14.—Cotton opened steady at an advance of 1 to 3 points on scattered covering. Trading was not active, but a bullish view taken of the situation in spite of liberal supply and distribution for the month of April, showing a considerable decrease in stocks and a continued full consumption. Reports of weather remained steady during the early trading, with prices about 3 or 4 points above the closing figures of yesterday.

The market was somewhat unsettled later in the morning with prices reacting to about yesterday's closing, owing to liquidation by early buyers on a renewal of scattered local selling.

Private reports of rains in Alabama and parts of this section of the Liverpool commission would retender part of the cotton taken up on the first day notice and was followed by rather freer selling during the early afternoon. Prices stood off to a net decline of 3 or 4 points here. The market closed barely below the low ruling on two months and the market steadied a point or two from the lowest.

NEW ORLEANS COTTON

(By Associated Press.)

NEW ORLEANS, May 14.—Cotton futures opened steady, one point up to two points down as compared with the last prices of yesterday. Sales were not as good as due, but the market was offset by the lack of moisture in the eastern half of the cotton region. The census bureau figures showing consumption of cotton in this country during April of 503,677 bales were considered bullish, but did not stimulate much buying. At the highest in the early trading prices were 2 points over yesterday's close, but at the end of the first half hour of business they were 1 point under.

Later in the morning balanced. The detailed weather reports indicated that higher temperatures were prevailing in the cotton belt, but this caused no selling as many telegrams and letters from different portions of the cotton region claimed that much replanting was still necessary because of failure of seed to come up. At noon the market was quiet, but steady, at a decline of 1 to 2 points under the close of yesterday.

INTERESTING NEWS AND GOSSIP OF THE MARKETS

Weather Reports, Crop Advices, Expert Opinions and Newspaper Comment

COTTON GOSSIP

Times-Democrat says: The same old story of the cause and effect of rains again crossed the path of the talent, this time with words of tearish advice, and selling followed. Some of the wise ones said it was only a case of the saddle and the fly. The man on the fence said it was merely a case of somebody placing flypaper in complacent spots in order to catch the unwary. In any event the contract market declined, but reflected a better tone in the last session, when the strength of spots became apparent and when it became known that big spot houses were taking on hedges. The weather is, of course, the controlling influence insofar as the fall positions are concerned, while the fate of New York's protective stock will determine the fate of the bulls and the bears. NEW YORK COTTON LETTER

NEW YORK, May 14.—The market has been extremely dull and trading very light. Some buying on and after the call based on absence of rains. These are predictions by local weather and leather experts here that in the next few days. This brought out selling by Wall street operators and one broker who usually acts for Wall street sold about 15,000 December. While there is a bearish feeling the market took the selling well and some operators advance the idea that these contracts are being absorbed by the spinners and if this be true, no serious decline is probable. The weather map and with continued favorable weather we may expect a lower market.—Anderson.

NEW YORK STOCK MARKET WEAK IN LATE TRADING

Union Pacific, Reading, Steel, Canadian Pacific, Lehigh Valley and Wabash Led

(By Associated Press.)

NEW YORK, May 14.—Stocks reacted slightly in the first dealings today from the higher level reached yesterday, all of the speculative favorites sharing in the movement, though in most instances were only small fractions. Canadian Pacific was a decline of 1¾ and Virginia-Carolina Chemical with a loss if a point were the heaviest.

None of the energy displayed in the marking up of prices in the final trading yesterday was visible in speculation during the morning. Profit taking offset the slight stimulus derived from the rise in foreign markets, but prices rallied when offerings were withdrawn. Bull traders were inclined to buy on recessions. There was no sustaining inquiry, however, and movements were so small that the market could scarcely be said to have developed a definite tone.

Bonds steady.

Some low priced stocks seemed to be affected by the decline in the Wabashes to new low records. Union Pacific reacted 1 point and other southern and southwestern shares were heavy. Reading was steady, as was at a standstill in other quarters.

Stocks had a manifestly easier tone in the last half of the session. Scattered liquidation of minor shares contributed to the market's deterioration.

Speculative shares were offered more freely in the late session, and practically all that it gained by yesterday's upward spurt. Liquidation of Reading, Steel, Union Pacific and the Wabashes and discouraging steel trade reviews influenced bear selling.

One Failure But Plausible Argument.

BY JOHN M. OSKISON

I wouldn't introduce you to the man who said what I am about to quote—I'd be afraid he'd try to trim you. I quote his words to illustrate one of the fine-sounding but false arguments the promoters of risky ventures use in trying to lure money out of your pockets for their own enrichment. This man was talking to the man with a few hundred dollars and chiding that man for not making his small sum earn a lot for him instead of tucking it away in a savings bank which pays him three and a half or four per cent interest. Here are his words:

"If he pauses to think that every dollar which he deposits in a bank earns far more for the bank than he gets, he will discover that some one is taking advantage of those opportunities which are offered every day."

That is a much-worn lie. If the small saver puts his money in a well conducted savings bank he may be absolutely sure that it will not earn for the bank as much as one per cent more than the bank pays him. If it did, the rival savings bank would jump the rate of dividends until the general rate was raised to a point where the bank's profit would cease to be excessive.

I saw some tables of earnings of the commercial banks throughout the country the other day. Before I refer to them I want to remind you that the commercial banks, in the nature of things, are able to earn more on their deposits than the savings banks. And those tables of earnings revealed the fact that even among the most successful and biggest banks a rate of earning on deposits, capital stock, and surplus, as high as 11-2 per cent a year was exceptional.

So much for the argument that the bank is getting rich by using your deposits. Go to a banker you know pretty well and ask him whether or not I'm right—then judge the real value of my get-rich-quick friends' talk.

Some men find it as easy to climb a greased pole as to keep in the straight and narrow path.

A poor man is always saying he would like to be rich because of the great amount of good he could do with the money.

Start out with the intention of calling everything by its right name and you will change your mind before you have gone a block.

Our Presbyterian Guests.

Atlanta is singularly honored and fortunate in being host this week to the largest Presbyterian convention the world has known. For the first time in history all three of the important American branches of this great church are holding their annual general assemblies at the same time and in the same city. Their business sessions will be conducted individually, but each evening they will come together at the Auditorium for common counsel on the broad interests that concern them all alike; so that the three assemblies, though distinct in administrative matters, are one in spirit and generous purpose.

It is doubtful that a more widely representative convention was ever held in the United States. The official delegates, or commissioners, number some fifteen hundred men who have come from every quarter of the Union. About half of them are ministers; the others are laymen who are leaders not only in the church life, but also in the social and economic affairs of their home communities. Atlanta is thus in human touch with the highest character and impulse of the entire nation—the North, the East and the West, as well as the South. Besides the commissioners, the assemblies will be attended by hundreds of unofficial visitors, attracted by the importance of the occasion and the convenient railway schedules and rates that have been offered from all points of the country. The rank and file of visitors for the week will range between four and five thousand persons.

The city's traditional hospitality awaits everyone of these guests. All the churches of the community have joined with the local Presbyterians in extending a cordial welcome and hundreds of homes have been thrown open for the entertainment of the official delegates. The Journal voices the sentiment of all Atlanta in greeting these distinguished visitors most heartily and in wishing them a convention that will be abundantly fruitful for the great cause they represent.

The man lacks enterprise who stands around waiting to be driven to drink.

People have more aches and pains in their imaginations than elsewhere.

Isn't it surprising how many of your friends are broke when you want to make a touch?

True Conservation.

In discussing the more liberal and constructive spirit that is now infusing the conservation movement, the Norfolk, Va., Pilot aptly remarks: "It isn't enough to prevent our water courses from passing into the hands of private and special interests, to be exploited for their particular and immediate advantage without thought or concern for the public's rights and needs. Some means must be found for rendering this source of natural wealth available for the promotion of enterprise and for the development of fresh opportunities, without incurring the risk of wanton waste or the danger of monopolistic control."

What is true in this respect of water powers is equally true of all the stores of natural treasure. Conservation, when rightly interpreted and applied, means vastly more than mere preservation. It was to be expected that the first aim of this important movement would be the protection of streams and forests and mines against private greed and waste. Its first note was logically one of protest, for a time had come when resources that belonged to all the people and should be held unimpaired for the needs of future generations were being sacrificed for the fortunes of a few men and were being monopolized by special interests.

But conservation cannot end at this point, if its true mission is to be fulfilled. America's natural treasure must be utilized for the public's practical good, not indefinitely locked up like a miser's hoard. It must be saved from selfish or unscientific exploitation, but at the same time, in so far as is consistent with the laws of science and economy, it must be turned to fruitful account for the good of the people of today.

Let the Courts Decide.

Japan's present attitude toward the California anti-alien land bill appears to be one of prudence and restraint. Its ambassador at Washington, dispatches say, will make no further protest until Governor Johnson acts upon the measure; if he signs it, as is likely, Japan will not then proceed on its own account to test the constitutionality of the law, but "will wait a reasonable length of time to see what the federal administration intends to do," and will look to our own government to determine through an appeal to the courts whether or not the California bill involves a treaty violation.

That seems to be the most satisfactory course this vexed issue could take, unless California herself, yielding to a sober second thought, should withdraw or suspend the measure that has brought the discussion to pass. It would have been far better had the settlement of these questions been left to diplomacy, instead of being seized upon pellmell by the Legislature of a single State. Since a national treaty was involved, the matter of alien land ownership should have dealt with directly between Washington and Tokyo.

But if the bill is to become a law, it must stand or fall by the decision of the courts. If it is adjudged to be in violation of the treaty between the United States and Japan, it will be void, for international treaties are supreme law which no single State can contravene. If, on the contrary, it involves no such violation, Japan has no ground for protest in so far as this particular bill is concerned.

In either event, a judicial test of the law is the direct and logical way out of the present difficulty.

The Franco-Spanish Alliance.

King Alfonso's visit to Paris is being used as a peg on which to hang all manner of gossip concerning a Franco-Spanish alliance. The young monarch, we are told, has been in conference with President Poincare; farreaching designs are afoot whereby France, actvigly supported by her Iberian neighbor, will play a bolder hand in European affairs and whereby Spain, in return, will receive assistance in bettering her finances and in developing her natural resources.

Spain's military strength counts for comparatively little, if considered within itself alone, but as an adjunct to that of France it would become important. In commenting on this aspect of the rumored alliance, the Washington Post points out that "Spain is not confronted by menacing neighbors, like her new ally; and in the event of trouble, her contribution to the mutual activities would be employed within French territory. No concealment of that feature of the arrangement is attempted, the French press favorably commenting on the prospect that two hundred thousand fine soldiers would thus become available for the defense of the country."

Never within recent years has the equilibrium of the Triple Alliance and the Triple Entente been so unsteady as withi the past few seasons. Germany and Austria are suspiciously watching every shadow of France and England and Russia. Especially marked just now is the distruct between Germany and France. The mere hint of a Franco-Spanish alliance is, thereore, enough to set Europe tiptoe with expectancy.

Atlanta is in fourth place, but then the season is young.

All work and no pay makes Jack a Socialist in time.

At this season of the year we rather incline to the profession of teacher, or some other job with long vacation.

The Standpatters' Old Game.

The demand of the Senate Republicans for new hearings on the Underwood tariff bill is obviously a bit of political strategy intended to delay and entangle this all-important measure.

For six weeks or more, the ways and means committee of the House was engaged in hearing the claims and protests of every interest that was concerned in tariff revision. The reports of those proceedings would fill a volume of several thousand pages. The committee began holding sessions before the new Congress assembled and granted a full and free hearing to all who wished to present their views.

It would, therefore, be merely a repetition of this work to reopen the hearings before the Senate finance committee. There is no desire for precipitate or ill-considered action on tariff revision, but the country has waited decades for a sorely needed reform in this field of its economic affairs. In this eleventh hour, when a bill that is fair and that is acceptable to the public has passed the House, reactionary efforts should not be countenanced.

THE CREED OF POWER

BY DR. FRANK CRANE.
(Copyright, 1913, by Frank Crane.)

Come, say this with me. Let us join hands, face the tempest, and repeat our creed, the Creed of Power.

I am backed by Power, vast, unconquerable, irresistible Power.

Suns are behind me, galaxies, whirling fire-mists.

Great winds, races, nations, the numberless millions of all them that have strived bravely, are in my blood.

Revolutions, martyrs, victorious rebellions are back of me.

I am the forward-thrown wave of almighty force. That which launched my personality into life's struggle is Destiny. No one can resist her. She moves through the swarms of men as the elephant through the reeds of the jungle. Stand aside! It is not I who am coming, it is Destiny advancing me, her pawn.

I care not what is the purpose of this or that in the world, or government, institutions, armies; nor what is to be the fate of America or Germany or Japan; nor what is to become of the stars and the moon; it is I, I, in whom are concentered the intentions of the universe; the universe meant for me to live, to love, to do, and to triumph.

It is for me to keep heart and keep step, to play the hero, and "having done all, to stand." So doing, I sweep all before me, the breath of the All fills my sails, the muscle of the All swings my battle-axe.

I am I. I am not a little exclusive I, but the great inclusive, allied I. If this is egotism it is cosmic egotism.

It is the play of the stellar electricity in my soul. It is the central heat of the planet warming my being.

Behind me, bearing me on, is Power. This Power energizes me, it is within me. It throbs like a locomotive, it hums like a high-powered motor, it roars dull and deep as a blast-furnace. I can hear it in the night-watches, a rumble as of distant thunder. Nor men, nor events, nor death, nor the machinations of the devil can dismay me. Worlds mean nothing to me. Removed from this earth, dead, I shall expect new planets as footholds for my forces. I shall not be disappointed. Nature destroys no force; she only changes its mode of motion.

This, therefore, is my creed. I look into myself, and if I find in me any goodness, any nobleness, any love, any upleaping ambition to create, I laugh, for these things are fragments of supernatural radium, of everlasting outpouring Power.

I have learned the lesson of lessons. It is never to be afraid of God.

I have taken this Power idea as my own. I have stripped all the rags and trappings of heathenism from it. I have discovered its shattering stellar beauty. I have found out it is what men call—GOD.

Where Practicality Failed

(Kansas City Star.)

The man who prides himself on being "practical" is one of the modern institutions. He is against what he calls "fads and frills." Pictures he regards as foolish. Music is good only for girls. Higher education is all bosh. The boy ought to get into business as soon as he knows how to read and write. These college professors who speculate about philosophy and work on impractical scientific problems are common nuisances. This sort of man is fairly familiar.

There was one civilization in which he had his own way. Twenty-five hundred years ago Phoenicia was apparently the coming commercial power. Tyre and Sidon were its great ports. Isaiah refers to it as the "mart of nations." "whose merchants were princes, whose traffickers were the honorable of the earth."

The Phoenicians were absorbed in trade. They were great merchants. They carried their commerce to the ends of the known world. But they were unscrupulous in their dealings and acquired a bad name among the peoples with whom they had to do. Art and literature never interested them. They developed no public spirit, no civic virtues. All that they cared for was to make money. So, lacking ideals, they finally perished from the earth leaving nothing but their name, having made no contribution to civilization except, perhaps, the alphabet.

Side by side with Phoenicia grew up another civilization, absorbed in everything the "practical" man detests. Education, art, literature, science, philosophy, flourished wonderfully in Greece. True, the Greek peoples finally degenerated and lost their supremacy.

> Helen's lips are drifting dust,
> Ilion is consumed with rust,
> All the galleons of Greece
> Drink the ocean's dreamless peace.

Yet it has been said that there is scarcely anything in modern civilization that is not Greek in its origin. Certain it is that civilization could not have reached anything like its present stage without the foundations laid by those dreamers of the past.

"Practical" Phoenicia and idealistic Greece! Their fate shows that in the struggle for existence Nature requires something more than a sterile practicality.

THAT PSALM OF LIFE RAG.

This ain't no, now, mournful number;
Hear that syncoscraping scream?
Kid, those feet are dead that slumber;
Never mind, now, what they seem.

O, that reel! O, kiss me, ernest!
Do that wave and then that roll;
Dust your toes and dance your durnedest;
Lift your shoulders, stamp your sole!

Trots are short and we're unflagging,
And our hearts, though stout and brave,
Still, like clarinets, are ragging
Syncopations to the grave.

In the world's broad hall of trotting,
In the realm of bunny-hug,
Do not be a two-step notting—
Be a bearcat, be a bug.

Let that Kitchen Sink remind us
We can make our dance sublime,
And, departing, leave behind us
Hoofbeats in tra-la-la time.

Hoofbeats that perhaps some cutie,
Trotting o'er Life's slipper floor,
Some attractive tutti-frutti
Lamping, may say "Dance some more!"

Leave us, then, be up and doing,
With a foot for any gait;
Now preceding, now pursuing,
Pert and caper, slide and skate.

THE DIARY OF OUR OWN SAMUEL PEPYS.

May 9.—Up and read Mr. Rhodes's "Sealed Orders" and deemed it a good tayle and well-wrote, too, and far from the world's worst story. To my office and finding it to be a cloudy day with signs of rain, I thought there would be no tennis-game this afternoon so did take train for Chicago to see my sister Evelyn's new house.

10.—Lay late and slept the best in many weeks and to the hain-barber's to be trimmed against my arriving in Chicago and it cost me 3s. To breakfast of some prunes and some oaten-meal and eggs and a beaker of coffee, all very fine and I in great content with all the world. Mr. Winch Norden the assurance-man to meet me, but soon rid of him and thence to my business, which I did get on well with. With A. Loeb to luncheon and thence to the ballpark to see W. Johnson defeat the White Sox which he did, but the great hullabaloo made by them that did desire to make me purchase peanuts, popcorn, sossidges and such fripperies did irk me greatly, and the worst ever I heard. To my room early and began to read Mr. Harrison's "V. V.'s Eyes," which I find a better book, thus far, than "Queed."

11.—Up and to my sister Evelyn's and I found her well and my sister Amy blooming and be glad of seeing me. All the day in visiting my uncle Henry and my cozen Robert and the others and found it pleasant to see so many friends of the old days. Visited, too, Mistress Edna Ferber, whom I like better each time I see.

To Mr. S. S. Toddings, Jr., who writes to the Hammadversions upon that attractive isle that "some of the principal grievances of this remarkable humorist seems to be his experience with local steamship agencies in whose offices 'one-tenth to one-half of his time' was spent in 'discovering that for $10 or $15 extra he could return home when he wished.'"—to Mr. Toddings we beg to say that we had no trouble whatever. But nobody else we met—names gladly furnished—didn't have a hard time adjusting return passages. . . . THE INCOME TAX

VII.—Exempting Small Incomes.
BY FREDERIC J. HASKIN.

The first problem in passing an income tax is to determine what limit shall be fixed below which incomes shall not be taxed. It is always recognized that people have a right to an income large enough to maintain themselves under decent standards of living, free from taxation. To deny them this right is practically to force them upon the charity of others or the alms of the state. The exemption is generally known to economists as the "minimum of existence," and, of course it varies with the many standards of living in the several countries. What would be low exemption in the United States would be a rather high one in England, and a very high one in Germany. There is a tendency in England and its colonies in favor of high exemptions, since there is a desire to shield from undue burden the people whose incomes but little more than suffice for the needs of their families.

• • •

On the continent, on the other hand, the tendency is to tax everybody, but to make the rates for the people of small income so low that their taxes are only large enough to teach them a proper interest in the government and a proper appreciation of its powers. In some countries there is a system of abatements which lowers the tax rate as the ability to pay grows less in the individual.

• • •

There is usually a limit, however, below which any country will not go in taxing incomes. This not only arises from the fact that money taken from people who have no margin of profit above the most pressing needs and peremptory requirements may have to be refunded to them in the form of charity, but more so from the fact that the cost of collecting and keeping the record of very small sums is greater than the amount collected. As no government cares to pay out more than it gets in for the mere purpose of getting it in, there is a limit beyond which reasons other than consideration for the taxpayer prompt the taxing power not to go.

• • •

On the other hand, when exemptions are raised to a point too far up the scale it throws the burden upon such a comparatively few people that it comes to be dangerous class legislation. In a republic such a policy so restricts the number of taxpayers that the masses never feel the tax, and often it leads them to unjust discrimination against the well-to-do. When the majority, and especially an overwhelming majority of the voters, are not affected by an income tax law, it is but natural that they should, in the beginning, look with equanimity upon heavy taxes against the minority, and finally come to be dissatisfied with anything but the heaviest burdens for the shoulders of the rich, in order that the burden may be taken off their own.

• • •

There are two methods of making exemptions under various income tax laws. Under the one method the law says that incomes below a certain sum shall be exempt, while all incomes above that amount shall be taxed at their full amount. Under the other method the exemption applies to all incomes, no matter what their amount. Under the former plan, where there was an exemption of $1,000 and incomes above that were taxed at 2 per cent, an income of $999 might pay nothing, while an income of $1,001 would pay $20.02. Wherever the income exceeded the exemption the entire income would be assessed at the regular rate. Under the latter plan, where there is an exemption of $1,000 and a man's income is $2,000, the man would have to pay his 2 per cent on the second 1,000 only. There are many cases where the laws have been entirely ambiguous upon the subject, and judicial construction had to be obtained. In the United States it has been the practice to exempt everybody from the payment of a tax upon the portion of their income below the point of exemption. In other words, if there be an exemption of $4,000, as there was under the last income tax law, and a man have an income of $5,000, he would have to pay his tax only upon the difference between his total income and the legal exemption, or, in this case, upon only $1,000.

• • •

Exemptions from the payment of taxes extended to people of small means are by no means a new development. As far back as 1708 France began to exempt first individuals and then whole classes. These exemptions became so numerous that after awhile it almost wholly undermined the existing system of taxation. In 1802 England established a scheme of exemptions that not only exempted all incomes below $300, but which also allowed a sliding scale of further exemptions for all children in the home above two. Forty years later Great Britain increased the exemption to $750 and made it apply to all incomes, instead of to personal exertion incomes as had been the practice.

• • •

Exemptions, even when very low, absolve the great majority of the people from the payment of income taxes. If the United States should decide to exempt all incomes of $4,000 and less, the number of people who would have to pay the tax would be very small indeed, when compared with the total population. The government service affords a criterion of what might be expected under such an exemption. There are some 400,000 civilian workers in the employ of Uncle Sam. Yet, when one goes to count those who have incomes of more than 4,000 he finds them few and far between. Considering their salaries alone—and few government employes ever get a chance to save enough to enjoy much other income—one might assume that the number of people who enjoy incomes of $4,000 a year from their work for Uncle Sam is certainly not more than 4,000. There are a large number of presidential appointees whose incomes do not amount to $4,000 a year, and there are some who are not presidential appointees who get more than $4,000, but they probably approximately balance and, therefore, we are justified in assuming that the workers for Uncle Sam in the $4,000 class approximately equal and certainly do not exceed the number of presidential appointees outside of the second and third-class postoffices.

• • •

As will be explained more fully in a subsequent article, when the constitutionality of the law of 1894 was attacked, it was more upon the ground that the exemption of $4,000 was too high, so high as to destroy all the claim it might have to being uniform within the meaning of that word as used in the constitution. Page after page of argument was brought forward to prove that the tax was levied upon such a small number of people as to put it without the pale of constitutionality, and the lawyers who attacked the act predicated their main fight against it upon that idea. It so happened, however, that the court did not pay much attention to their arguments on that score, but finally declared that the $4,000 exemption was not a valid constitutional objection against the law.

• • •

If the United States should adopt a $4,000 exemption it will declare to the world that its living standard is higher than that of any other nation, for no other nation that levies an income tax makes such a wholesale exemption. Not many countries fail to tax incomes that are only a fourth as large, and some of them go much farther down the line. To say that $4,000 is the "minimum of existence" in the United States would be to fly in the face of fact, for certainly nineteen out of twenty families in the United States live and grow up with much smaller incomes than that. When congress fixes the exemption it will probably have a two-fold aim in mind—to make it high enough so that all question of the burdensomeness of the tax can be eliminated, and yet low enough that sufficient incomes are reached to make the tax yield enough revenue to insure the treasury against a deficit.

POLICE BOARD FIGURES IN OLD-TIME WRANGLE

Members Evenly Divided on Question of Letting Chief Name New Sergeant

The board of police commissioners are equally divided on the question as to whether the chief of police shall be permitted to name a sergeant to succeed the late Sergeant K. S. Foster.

At the meeting of the board Tuesday evening six members voted to allow the chief to name the new sergeant and six voted against the motion. After considerable wrangling the board adjourned without having taken any action on the question.

Those commissioners who favored the motion openly charged those who opposed it with deliberately violating the rule of the board which is supposed to permit the chief to be chief in fact as well as in name.

The squabble did not arise over the appointment of any particular man for the sergeancy. The bone of contention was whether or not Chief Beavers should have the power to either appoint his ranking subordinates or recommend their confirmation by the board. Only one man's name was mentioned in connection with the office. Commissioner George Johnson precipitated the long debate by nominating Roundman J. W. Whatley for the position. Other motions, countermotions and amendments were offered so frequently after that, however, that Whatley's nomination was forgotten in the shuffle and did not even find a second.

Evidently anticipating a fight, the board disposed of all the other business of the meeting before the question of selecting a sergeant was finally brought up. When it came time to select Sergeant Foster's successor, Commissioner Johnson was on his feet immediately.

"I want to nominate a man who has given faithful service to the city for twenty-five years and who has never been reprimanded by a superior officer, Roundsman J. W. Whatley," he said. Commissioner Johnson continued, declaring that it was "embarrassing" for Chief of Police Beaver to be compelled to pick out one candidate among thirty and recommend him appointment.

Before the board could act upon the nomination, Commissioner Smith was upon his feet declaring that it was a move to curtail Chief Beavers' power.

"It's bringing up the old question of whether the chief of police shall be chief in fact or only in name," he declared. "I ask the board to let Chief Beavers recommend a successor. He knows better than any other man who is fitted to fill the vacancy."

HOW THEY VOTED.

Then the squabble started. Nearly every member had something to say. A few minutes later, however, a motion to have the police head name a new sergeant was seconded and voted upon. It resulted in a tie. Commissioners Mason, Fain, Smith, McEachern, King and Dozier voted to let Chief Beavers name the officer and the following voted against it: Verney, Garner, Johnson, Colcord, Clark and Mayor Woodward.

Many counter motoins and amendments followed. Even a suggestion by Commissioner Verney that a motion be passed setting forth that the defeat of the original move be considered no reflection upon Chief Beavers was ignored.

"I move we adjourn," sang out Commissioner Clark. The board voted the proposition down, ten to two.

A second vote on the original suggestion to let Chief Beavers name the new sergeant brought forth another tie and fifteen minutes later, following a verbal battle in which more than half of the board members were not participants, a second motion to adjourn was passed.

The original motion went down as unfinished business. Unless a special meeting is called the vacancy will not be filled until next month.

CHIEF WAS UNPERTURBED.

During the entire session Chief Beavers sat at one end of the table, apparently unperturbed. At the end of the meeting he smilingly refrained from making any comment.

Another squabble occurred over the naming of supernumerary policemen who recently passed the civil service examination. There were forty applicants who had stood the mental and physical tests. After a twenty-minute debate it was decided that each commissioner should pick out one applicant who should be ordained eligible to a patrolmanship. The following were picked and will be sworn in today: E. D. Meek, W. A. McKinney, E. M. Carson, Jr., L. G. Bowman, J. C. Simmons, M. C. Stigall, J. T. Malcolm, C. C Carroll, A L. Appling, A. E. Davis, Robert H. White and D. W. Ellis. The rest of the applicants will be retained on the waiting list subject to the call of the board.

E. L. ADAMS IS CHOSEN HEAD OF CREDIT MEN

175 Southern Merchants Do Business With Members of the Association

Resolutions favoring more stringent garnishment laws, and the enactment of a law which will increase the responsibility of the person who passes a worthless check, were adopted at the annual meeting and dinner of the Atlanta Association of Credit Men, held Thursday evening in the main dining room of the Piedmont hotel.

The association instructed its legislative committee to co-operate with the grocers' organization in urging the legislature to strengthen the garnishment laws so as to widen their application.

E. L. Adams was elected president of the association for the ensuing year; C. L. Elyea, first vice president; S. F. Boykin, second vice president; H. T. Moore, secretary; E. L. Rhodes, treasurer. The following executive committee was chosen: Ralph Rosenbaum, Boling H. Jones, C. V. ogan, S. Prietag, L. E. Floyd and J. W. Harlan.

Following are the delegates who will represent the association at the national convention in Cincinnati, June 17-20: President Adams, Vice President Elyea, J. L. Baldwin, C. V. Logan, S. Fretag, E. S. Papys, L. E. Floyd and Secretary Moore.

Retiring President Herbert E. Choate acted as toastmaster, and the principal address was delivered by William G. Brantley, Jr, who at the solicitation of the association, took his father's place upon the program when it became known that the latter had been detained in Waycross by legal business. Mr. Brantley urged that the business man take more interest in politics.

The report of H. B. Wey, chairman of the information bureau of the association, showed that the members of the organization do business with 175,000 southern merchants whose names are entered on the lists of the bureau.

Last year the association gained fifty-three new members, running the total membership up to 158.

Following his election President Adams delivered a strong speech in which he declared there is a need for better collections. He suggested that ways and means should be provided to prevent the small merchant from getting head over heels in debt and also to protect him from the consumer who fails to pay his just debts.

Chairman Rosenbaum of the adjustment committee recounted the amicable adjustment of numerous credit accounts and recommended that a collection agency be established as an adjunct to the adjustment bureau.

NEWSBOYS ARE DINED BY THE S. V. D. FRATERNITY

For once in their hungry little lives the newsboys of Atlanta have had their fill of "eats." Before the banquet board at the Y. M. C. A. Tuesday night they sat for two long delightful hours and ate until they could eat no more. Their hosts were the members of the S. V. D. fraternity.

Five hundred or more of the youngsters were present, during both the banquet and the evening of entertainment which followed. The menu which they slaughtered was a gastronomical dream, and the program of the evening was equally as interesting as the food which they demolished.

Miss Mary Robert Steadwell, of Tennessee, gave a number of clever impersonations which were enthralling to her naturally restless audience. When she concluded the newsboys gave her three lusty cheers and, like Oliver Twist, asked for "more."

SEVENTH DAY ADVENTISTS PASS THROUGH THIS CITY

Delegates from California to the world's general conference of Seventh Day Adventists at Washington, D. C., passed through Atlanta Sunday in two special cars via the Washington Sunset route. They were a part of the 4,000 people who are expected to attend the big meeting at the capital, the largest which this sect has ever held.

Oy-Yoy! Fountain's Dry! No More Beer to Be Sent "C.O.D." or Phone Order

The delivery of beer "C. O. D." by Atlanta saloonkeepers is to be stopped by Chief of Police Beavers, acting under advice of Recorder Broyles.

It was decided that this action would be taken Tuesday afternoon following the trial of Jesse Howard, negro, arrested on a charge of selling beer without a license. Howard testified that he had been sent out from a Decatur street saloon to deliver a bottle of beer to a man who had ordered it over the telephone, and that he was carrying out the orders of his employers when he was taken into custody by Patrolman Wade. The latter testified that it was a common practice among beer dealers.

Judge Broyles, acting on the written opinion of the city attorney, found Howard guilty and fined him $15.75. He told the negro to tell his employer that a repetition of the offense meant the latter's arrest, and then notified Chief Beavers to warn all saloonkeepers of the new interpretation of the law.

The police head gave instructions to all officers to notify saloonkeepers on their beats of the new ruling.

The decision is even more far-reaching than at first appears. It means that not a householder in the city can call up a saloon over the telephone and order half a dozen bottles of wet goods, as has been the custom in the past. In the future, when the man of the house gets thirsty he'll have to go to the saloon in person.

Also it places beer practically beyond the reach of women, as another city ordinance specifies that no woman can enter a saloon, and, under the ruling, it will be impossible for her to order it sent to the house.

POLICE TO ASK COUNCIL FOR FINGERPRINT PLAN

Five hundred dollars for the installation of a finger print system of identification in the Bertillion department was asked by Chief of Police Beavers at the regular meeting of the board of commissioners at police headquarters Tuesday night. The matter was referred to a committee consisting of the police chief and Commissioners Johnson and Colcord.

This body will bring the question before the city council.

"Nearly every other large city in the country has such a bureau," said Chief Beavers in making his request. "Such a system is becoming a necessity in all police departments."

An Interesting Exhibit

An interesting collection of the work of Mr. H. Osgood is being shown at Cole Book company during the week, and includes several dozen delightful canvases representing a stay of several months in south Georgia and Florida.

Two seascapes in oil are particularly pleasing, showing the silvery light of early morning touching the water and a few fleecy drifting clouds with its glow.

The white sands bordering the blue waters along Pablo Beach have been the subject of several attractive water colors; the Spanish architecture and warmth of color found in St. Augustine furnished charming motives for a number of pastels and oils, and an interesting oil showed the curving shore line o. Mr. Osgood has struck a new and broader note, adding an even deeper and fuller expression of the love of nature which has always been reflected in his work.

THE EVENING STORY

Hole in the Fence

(Copyright, 1913, by W. Werner.)

DALE Norton cautiously glanced down at the small face under the dainty hat and was relieved to see no sign of tears. The situation they were in did not worry him much, but he knew what it meant for her. Not five minutes before, just at the closing time of the office in which they worked, they had been notified that the firm had failed. They were without work in a city where work was as scarce as the traditional hen tooth.

"This is a mighty unsteady planet, Merle, isn't it?" he queried. "Ten minutes ago I had a good job and better prospects. I was thinking of next year and planning to propose to you next week to begin to get furnishings—"

"You were taking a great deal for granted. Remember, I haven't accepted you yet," she commented severely.

"But you would—"

"Oh, Dale, how easily you do take life! I won't accept you!"

"I'll accept you, then," he answered placidly.

"No, you won't! I won't agree," she drew a long breath as if suddenly she had recalled something forgotten. "Dale, we're standing here and talking in this foolish way when we ought to be thinking of other things," she said a little brokenly. "Oh, how I dread to go hunting for work. And you're still smiling. Is life a joke to you?"

Something in her tone chased his smile away. "Merle, I ought to be sober as a deacon; I'll try, anyway. We're up against it, all right, and it's bust about to sit on us. I've got two blanks in my meal ticket and my board paid to last night. Rockefeller hasn't got much on me. But there's always a hole in the fence."

She shivered a bit, though the night was not cool. "I've paid up till tomorrow night for my room, but—"

"Butter and bread must be had as well as a room. There's just one thing to do, Merle. Come along with me and we'll use up this bit of pasteboard. No! there's your car coming, but I shall grab you and hold you till it goes unless you promise me you'll go with me to Marton's."

He stealthily knotted his fingers in her jacket. The car came and went. With a little murmured word that had no meaning to Norton, save in its sound, she loosened his fingers and agreed to join him at his dining place.

Face to face over the little table, with the simple and wholesome if cheap food before them, they took up the problem of finding the hole in the fence. Her small, dark, girlish face was sober with the knowledge of what they were facing. He was sober, too, but the smile that always was near the surface kept suddenly appearing.

When she asked him flatly if he had any idea where he could secure work the smile sought a deep, hidden hiding place and he confessed that he did not. Her eyes grew wide and dark as he spoke of the chances for her, and in their darkness was the fear of what might be.

Later, as he put her on the street car, he whispered: "Merle, whether you like it or not, I'm going to stick by you."

Then he smiled. She said nothing.

He was in his room when the truth dawned on him. "Dale, she thinks you're a muttonhead, one of those chaps who go around with a grin as a trademark; she thinks you haven't the real stuff in you. Confound it! I can't go around with my jaws stuck out, my brow wrinkled with thought, as I were bearing the burdens of a nation. I was born with a smile, I guess, and it'll take more than a lost job to sandpaper it off."

The next day found him and the girl in the same position. With money borrowed from a friend he took her to Marton's, and she told him of her vain search and he told her of his. Her lips quivered and he was no longer smiling except now and then.

She told him she was thinking of going to another city, and that announce-

ment struck him hard, for she and her simple, girlish ways had become a precious part of his life. He finally prevailed upon her to postpone her departure for one day at least. He did not say why, but he was not beaten yet in his hunt for work.

The following evening he did not wait for her, but went to her boarding place. He was met by the landlady, who informed him that Miss Raymond was about to leave the house, not being able to pay for her room. He smiled and softened the grim woman, winning permission to see Merle.

He found her sitting in the small reception room. Her eyes quickened with a little light, then the darkness came. She had never looked to him quite so frail and fairylike before. There was trouble, trouble everywhere.

For good reasons he was puzzled just what to do, yet there was no question but that he must do something. "Merle," he said as soberly as he could, "I've simply got to—to propose to you tonight again, and if you accept me, why, it will be mighty good for both of us."

She sighed a little. "The idea of such a thing! See the situation we're in—"

"Yes, I know, but, little girl, we can face things together much more easily than alone, and—there's a reason why. I want you for your sake—"

"Want me for my sake? What do you mean?" She clenched her hands and studied his face. "Dale, some time I hope you'll know that a girl doesn't want to be proposed to by some one who thinks a proposal is a joke. There you stand smiling like a—a——. Oh!"

"I didn't know that I was, Merle," he went on. "Lord! I can't help it. Whether I smile or not, I do love you, and I want you. Don't you, honestly, care for me?"

He did not see the pitiful tension of her lips that told of inner yearning. He heard only the quick, breathless words: "I could never, never marry you. I don't love you a bit!"

He quivered under the words and rose to go, all the sunshine and inner happiness blasted in a moment. He turned to the door unsteadily. As he reached it he was suddenly caught by two small arms that encircled his neck tightly, sending a thrill through him. He looked down into a transfigured face and heard a voice vibrant with love speak:

"Dale, Dale! I do—I do? I have way down in my heart ever since I knew you. I have been thinking of you all the evening and the cheery way you were trying to help me and face all we've got to face; but when you—at such a time—proposed to me—it seemed so—so strange—I just—and I'm tired, too."

Her head drooped upon his shoulder and he pressed the dark hair back gently. "I know it's funny, Merle, but I didn't see what I could do. I was rather rattled when I came. You see, I struck a queer old guy in the market section, who said he'd give me a job if I was married, because he found married men steadier, and I told him I was as good as married, or something like that. He said he'd give my wife work, too, after I'd hinted about it, and it seemed such a great chance I took it. And I thought the best way was to have you say you'd marry me first, then tell you of our luck afterward. I came right here, and I was feeling so good I didn't plan things out, I guess. I just wanted to be, first of all, sure that you loved me."

She looked up into his eyes, in which a smile lingered still, but she saw beyond the smile and the manliness of his sunny heart, and drawing his head down she kissed the brave, smiling lips.

"Dear, I am ready to be accepted," she said.

A Theological Point

A revival was being held at a small colored Baptist church in southern Georgia. At one of the meetings the evangelist, after an earnest but fruitless exhortation, requested all the congregation who wanted their souls washed white as snow to stand up. One old darkey remained sitting.

"Don' yo' want y' soul washed white as snow, Brudder Jones?"

"Mah soul done been washed w'ite as snow, pashon."

"Whah wuz yo' soul wasted—wite as snow, Brudder Jones?"

"Over lander to de Methodis' chu'ch across the railroad."

"Brudder Jones, yo' soul wa'n't washed—hit were dry cleaned."—Life.

LITTLE STORIES FOR BED TIME

By Thornton W. Burgess

(Copyright, 1913, by J. G. Lloyd.)

You sometimesr annot always tell,
No matter how you scheme and plan,
If things will turn out ill or well—
You just must do the best you can.

People who live that way, just doing the best they can every day and not worrying for fear that things will not come out just as they have planned, are called by a long name. They are called philosophers. Jimmy Skunk was a kind of philosopher. You see he planned everything as carefully as he could, and then he just made up his mind that he wouldn't worry. If he had really done all that he could do, why that was all he could do. The only thing was to make sure that he had done everything.

So Jimmy Skunk sat beside Prickly Porky the Porcupine in the Green Forest waiting for the black night shadows to grow blacker. When the darkness was at its very darkest they would steal up to Farmer Brown's dooryard and try their plan for setting Unc' Billy Possum free from the wire covered box in which Farmer Brown's boy was holding him a prisoner.

Not very far away some one else was watching and waiting. It was Reddy Fox. He had a plan, too. It wasn't to help Unc' Billy Possum. Oh, my, no! It was to upset Jimmy Skunk's plan, to keep Unc' Billy Possum a prisoner and to try to get Jimmy Skunk and Prickly Porky in trouble that Reddy Fox was watching and waiting. He was very impatient was Reddy Fox. He couldn't sit still. You know that is quite likely to be the way with people who are planning mischief. He kept going to the edge of the Green Forest to peep out, and he moved about so much that Jimmy Skunk's sharp eyes saw him.

"Hol" said Jimmy Skunk. "Reddy Fox isn't hanging around here for any good purpose. I'll just keep my eyes on him."

When the night was its very darkest and all the lights in Farmer Brown's house had winked out, Jimmy Skunk led the way up to Farmer Brown's dooryard straight to the box where Unc' Billy Possum was a prisoner. Unc' Billy was wide awake and waiting. Prickly Porky didn't waste any time. He just grunted a short "good evening" in reply to Unc' Billy's greeting and then got right down to work. Jimmy Skunk went off a little way where he could watch.

My, how Prickly Porky can gnaw when once he sets out to! Those big front teeth of his certainly can cut into the wood! It made Jimmy Skunk tickle all over to see the splinters fly from that box.

"We'll soon have Unc' Billy out of there," chuckled Jimmy as he kept watch.

Now, Jimmy Skunk is not so easy to fool, for all he seems so easy-going and even careless. He had made up his mind that Reddy Fox was hanging around for no good purpose, and so while he kept one eye on Farmer Brown's house he let the other one watch for Reddy Fox. So while Reddy thought himself so smart as he sneaked out of the Green Forest and kept in the darkest shadows Jimmy Skunk saw him and knew that he was up to mischief.

Reddy Fox had a very simple plan. He would slip into the henhouse and frighten the hens so that they would make a great noise, and that would bring Farmer Browne's boy out with his gun. Reddy chuckled wickedly as he slipped into the henhouse and thought how he would be far away in the Green Forest by the time Farmer Brown's boy could get out there, but that slowmoving Jimmy Skunk and Prickly Porky would be almost sure to be seen.

Just imagine how disappointed Reddy Fox was when he got inside the henhouse to find that all the hens were roosting so high that jump as he would he couldn't frighten them a bit. No, sir, he couldn't frighten them a bit. He tried his very best, but jump as he would he couldn't get near enough to really frighten them, and they didn't make noise enough to even waken Bowser the Hound.

Reddy Fox ground his teeth with rage as he slipped out of the henhouse.

"Ha, ha, ha, Mr. Smarty!" chuckled some one. It was Jimmy Skunk.

Reddy was too angry to say anything; he just snarled. Then he had a happy thought. He would waken Bowser the Hound.

ANNUAL RECEPTION AT THE DRIVING CLUB

The annual reception which followed the election of officers at the Driving club marked the opening of the early summer season when numbers of smart gowns make their first appearance and the change from spring to the warmer season is also noted in the hats which complete the charming costumes.

Jackets Held To Slow Work During Week

Coach Heisman Afraid Players Will Overtrain for the Big Games With Georgians, Pitchers Don't Work

The man danger now facing the Tech ball club is overtraining. All the players are young at the game, a bit inexperienced in big games and for this reason are apt to be overworked in training for a series as big as the one about to be waged with the Georgia nine.

No one better realizes the danger of overtraining the club than Coach Heisman and he is having them all go a bit slow. In fact but little physical work is being done. Hard physical exertion will serve to put the young players in bad shape and this is what the Jacket coach is fighting hardest against.

On Tuesday very little hard work was tried. The boys indulged in a bit of batting practice and then discussed the different hard plays that are apt to come up in a big game. No hard base running, sliding, fast fielding or hard pitching was even attempted. Coach Heisman being entirely satisfied with the physical condition his boys are now in.

On the Tech team this year are three first year men on the infield, a new catcher and two youngsters in the outer works. This makes up practically a first year team and the best policy in training such a bunch of youngsters is to go slowly and not let them gain too much confidence or become stale. Last week just before the club went to Athens for the two big games there was but little work at Grant field. Coach Heisman held them in close with the result that they went like a house afire when finally turned loose in the opening game with Georgia on Friday. It is for this same line of work that Coach Heisman is working this week.

Pitts and Eubanks are working out their arms decidedly slowly. Neither pitched such hard ball in Athens and are right now ready to go the distance without extra exertion. Their whole idea in working at all is to keep out the kinks and retain their good control.

HURLER BECK IS TO STAY

"Nashville has no idea of selling George Beck for immediate delivery," declares Alf Williams, the genial president of the boosters, who is one of the directors of the club. "On the contrary," he continued, "we would be willing to pay about $5,000 for another pitcher like him if he could be found and also if we had the money.

"Beck looks like a second Demaree to us, and I would not be surprised if he brought just as large a sum as the Mobile star of last season. The Cincinnati club is anxious to land him, but Joe Tinker will have to wait for him until the season is over, even if he is the highest bidder. It is hardly possible that President Hirsig will enter into any agreement for the release of Beck this early in the season, as he is bound to improve in value as the season grows older.

"To sell him now would only wreck the chances of the team finishing anywhere in decent company."—Exchange.

Polo Ponies Here For the Big Game

NEW YORK, May 14.—Forty-four polo ponies, the best that British gold could buy, reached here on the steamship Minneapolis today and were sent to the Piping Rock Country club on Long Island in readiness for the international polo matches between the English and American teams in June.

The ponies are valued at $100,000 and no human travelers had better care during the voyage from England. Thirty red-sweatered grooms attended them. They were fed selected hay and English oats and enough of this was brought along to last them during their stay.

Twenty-four of the ponies belong to the Duke of Westminster.

Carolina League Weiser Sold to

CHARLOTTE, N. C., May 14.—Outfielder Weiser, of the Dallas, Tex., league, has been purchased by the Charlotte, South Carolina, league, and will report here this week. Weiser played for Charlotte last year, but was sold to Dallas the end of the season.

HOW GAMES WERE WON

The Crackers were the champion losers yesterday. They dropped a game that was easily an Atlanta victory. With the score 5 to 4 and two men down in the ninth, Agler fumbled and the team went sky high, giving the Turtles a well earned victory of 6 to 5.

Campbell's pitching and batting were the features of the game yesterday between the Chicks and the Vols. With the score 3 to 1 in the seventh, Campbell started a batting rally that netted five runs and the game went the way of the Atlanta one.

The Billikens lost their game to Birmingham yesterday by the inability to connect with Prough. He was in great form and didn't give the Montgomery team a look in.

New York took it from Cleveland yesterday by the score of 8 to 5. The Yanks did the rally stunt in the seventh. The Naps blew to pieces and the Yanks came across the plate for four runs. An error by Chapman and two free passes filled the bases. Two more free passes and a wild throw into right field by Catcher Carish completed the story.

The Red Sox made it another one from the Tigers yesterday by the score of 8 to 1. The Boston men knocked Mullin out of the box in the first three innings and won the game easily. Speaker got two triples that added to the consternation that prevailed in the Tiger camp when the Sox opened up the batting rally.

The Browns had a hard time downing the Senators yesterday afternoon after getting a five-run lead in third inning. The Senators tied the score in the fourth and again in the sixth after St. Louis had gotten one across in the fifth. The Browns finally passed across the winning run in the seventh on a single by Williams, a double by Pratt and an infield hit by Wallace.

The home runs were the features of the game yesterday between the Phillies and the Pirates. The Pirates finally losing their seventh game in the eight inning, when Magee drove a homer into the right field bleachers. The game was exciting from start to finish, the score being tied up twice and then untied by a home run.

The batting of the Giants was sensational in their game with the Cubs, Myers, out of four times up, got two singles, two doubles and a free pass. Tesreau was a bit wild, but was good in the pinches. He struck out Zimmerman, champion batter of the National league, three times. All the Cub pitchers were especially wild.

LAND DEVOGT FROM BOSTON

BOSTON, Mass., May 14.—Catcher Devogt, last season with the Spokane Northwestern league club, was today sold to the Atlanta club by the Boston Nationals. He will leave at once to join his new team.

The purchase of Catcher Devogt doubtless means the release of Catcher Pat Graham, it being figured that Manager Smith will retain Joe Dunn in place of the ex-Rochester backstop, but just why is a puzzle to all fans who have ever seen the two work. Graham is young and a corking good hitter.

Just where Graham is to be sold no one has hinted. Manager Smith continues to keep his moves a secret and has yet to announce the purchase of Devogt.

Last season with the Spokane club Devogt hit .254, and fielded .979. At fielding he was second, having 409 putouts, 185 assists and just 18 errors in 125 games. At batting in 129 games he was at bat 398 times, made 48 runs and 101 hits.

Waivers on Crandall

NEW YORK, May 14.—Manager John J. McGraw, of the New York Nationals, has asked for waivers on Otis Crandall, the Indiana farmer, whose pitching has so effectively saved so many "stick" games that he earned the title of "doctor," according to reports published here today. The rescue pitcher extraordinary has also often proved a great pinch hitter and has always had a warm place in the hearts of the New York fans.

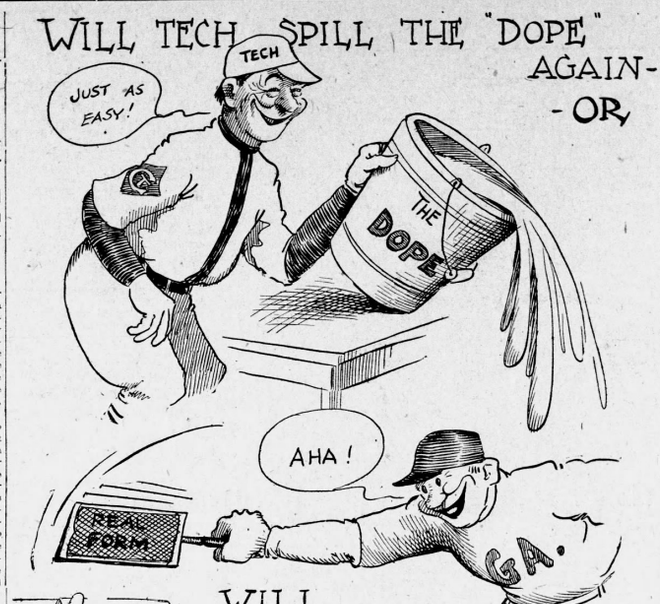
Hit in Ninth Gave Memphis One Run Lead

Atlanta Played Jam-Up Ball Until the Very Last and Then Threw Game in Air—Baerwald Hits Home Run

(Special Dispatch to The Journal.)

MEMPHIS, Tenn., May 14.—After recovering from the effects of a homer knocked in the first by Baerwald and getting the game practically sewed up, the Crackers yesterday afternoon put on a rotten exhibition in the last half of the ninth and allowed the Turtles to take the second game of the series by the narrow margin of one run. The final count was Atlanta 5, Memphis 6.

The Crackers had the game sewed up until the eighth, when the Turtles put one across. Then in the ninth with two down and a man on second Agler fumbled an easy grounder and the score was tied. Another hit and an error finished the tale. Wallie Smith was the real star of the game and did everything in his power to put the Crackers back on sound footing, but to no avail. He got five hits out of five times up and played a beautiful fielding game. The game was good all the way through and was full of hits and close plays.



TWO MORE COLLEGE STARS ENTER NATIONAL LEAGUE

With the advent of Davenport, of Auburn, and Ezell, of Clemson, into the professional ranks of baseball, the ranks of baseball will further be swelled by that class of player that makes the game better and cleaner. Davenport is one of the cleanest players that has ever played college ball and will make a good man for the Pittsburg team, with which he has signed for the season. He will report to Auburn at once and report for work at the end of the college season. Davenport will be used in some of the regular games at once, as he is a good player, has a cool head and will not have to be broken into the ways of the big league as much as the usual recruit that takes a place on the big team.

Ezell is perhaps better known in Atlanta than Davenport, as he has been here on several occasions and is quite a favorite with the followers of all college sports. He played on the varsity baseball and football teams and was one of the best track men in the south. He also goes to Pittsburg. He is a clean player and will be a good man for any team to have on its line-up.

These two men bring to mind the numerous players who have entered the professional ranks from the colleges all over the country and especially in the south. For some reason or the other the south produces a great number of college players to the big show. There is Derrill Pratt, of the University of Alabama; Willie Mitchell, of the University of Mississippi; Tommie McMillan, of Georgia Tech; Ed Lafitte, of Tech; Carl and Homer Thompson, of the University of Georgia; Red Smith, of Auburn; Wilson Collins, of Vanderbilt, and numerous others who are making good in the ranks of the big league. Georgia Tech has perhaps sent more players to the different leagues than any other college in the south. This is because Tech is in a big city that is a good baseball town and the college players get to see a great many of the big league teams that infest. Tech alone has sent Tommie McMillan, Erskine Mayer, Sam Mayer, Mary Calhoun, Ed Lafitte, Weldon Henley, Corliss Buchanan, Goat Holliday and a dozen more who cannot be recalled at the present.

The greatest surprise to all followers of the college game in the south was the fact that Harry Holland, the unimitable third sacker of the Yellowjackets, did not go into the professional game. He could have signed up with most any team in the United States, as he had offers from the best to the worst. In the spring that he left school he had eleven offers to play, and yet he turned down every one. Connie Mack, of the Athletics, offered to take him and put him to playing regular third base and shift the entire infield around to suit him for any reason. The scheme did not work he would keep him on the bench until he made good; in other words, he would not farm him. So far he has not accepted an offer, but he has thousands of friends all over the south who would herald his entrance into the big ranks with much joy.

Ezell and Davenport will leave at the end of the college season for their big league town.

"Culebra Cut" At Tech Park

Work on the grand stand at the Tech athletic field will not begin until the first of June on account of a "Culebra slide" that has developed since the grading and excavation took place. The plans that were laid for the stands provided for plank concrete that is used for sidewalks and such work, but now the stands can not be placed next to the grounds as was expected and a new set of plans has to be fixed and approved, before the work can begin.

The new plans will call for reinforced concrete throughout and the structure will be built off the ground and not on the surface of the earth as was expected. This is because the earth is of a crumbly nature and already is beginning to slide. The work will begin, however, promptly on the first of next month and will be ready by the first of September. The new stand will seat 5,680 persons comfortably. This will be in addition to the grand stands that are now in use at Grant field.

Musser Hurls For Atlanta

MEMPHIS Tenn. May 14.—Kissinger and Snell and Musser and Graham will be the batteries for today's game. Musser has not worked for about ten days and should be in the best of form. This series would have gone to Atlanta on account of the poor work of the Memphis pitchers were it not for the fact that the Crackers played good ball yesterday with the exception of a blow in the ninth which gave the locals a victory that should have easily been a game for the Crackers.

The weather for the whole series has been ideal. It is hot and clear today.

Busy Working Tennis Stars

NEW YORK, May 14.—Lawn tennis players who are candidates for the American international cup team to the Davis cup matches met at the West Side Tennis club yesterday afternoon. In the first competition W. W. Niles paired with Charles E. Haggett, the professional, defeated C. F. Touchard and T. R. Pell, at 3-6, 6-2, 6-4. Then H. H. Hackett and R. D. Little split sets with Niles and Haggett at 7-5 and 4-6.

R. D. Wrenn, chairman of the international committee, stated after the matches were over that the committee had arrived at no decision as to the makeup of the American team, that it was likely before the team was finally nominated last Friday other competitions would be ordered.

TEXAS AFTER GEORGIA CLUB

AUSTIN, Tex., May 14.—The University of Texas baseball team, claiming the championship of the southwest, sent a challenge today to the University of Georgia, as champions of the Southeast and of the Southern Intercollegiate association, for a series of three games to be played in Austin on June 7, 9 and 10 for the college championship of the south.

Of twenty-eight games played this season Texas has won twenty-five.

HERE'S ANOTHER GEORGIA BOY WHO IS STARRING ON DIAMOND

Very Few People Know That Pacific Coast Star Is Brother of Claude Derrick, Now With New York

Let us introduce Mr. Fred Derrick, star first baseman of the Portland Beavers, a native of Georgia, a college fraternity man and a good fellow.

Derrick is one of the youngest seasoned ball players in the Coast league, this being his fourth year at the game. If he continues to show the improvement that has been apparent since he has been with the Beavers, it will not be long before he is a big tent regular. In the American league last year he was regarded as one of the greatest fielders that ever worked around the initial sack. He was regarded as the equal of Ed Konetchy, star right handed first baseman of the St. Louis Nationals, and nearly as good as Jake Daubert and Hal Chase, but, of course, did not hit in their class. All that he needs to do is to hit the ball around the .275 mark and it is a cinch that he will be taken up there. From present appearance he is going to have a good season with the stick, as he has been knocking the ball around the lot in great style. In addition, Derrick is one of the fastest men in the league and when the base running record is compiled at the end of the season he will be found right among the top notchers.

Herefore Derrick has been handicapped by a touch of malaria and an attack of boils, which have interfered with his work, but he is getting over both of them.

Fred was born at Berton, Ga., ten miles from his present home, Clayton, same state, June 19, 1885. He got his first baseball experience at the Georgia College of Technology, which he attended for three years. However, he was ill during two of the years and did not get much of a chance. His first professional experience was with Manager Thomas Stouch, of the Greenville, S. C., club, to whom he was recommended by his brother, Claude Derrick, the sensational young shortstop of the New York American league club, but who was injured in an exhibition game with the Brooklyn club the day before the season opened by being spiked by the hand. Stouch is the fellow who sent Joe Jackson to the Athletics, but Mgr. afterwards released him to the New Orleans, which sold him to Cleveland.

Toledo drafted Derrick from Greenville, but he was sick in the spring of 1911 and was sent to Oshkosh, of the Wisconsin league. He hit .315 in over 125 games, and was recalled at the end of the year. Last year he played first base for Toledo and was sent out to Portland when McCredie started his realignment of the Portland club. President Somers, of Cleveland, who also owns the Toledo club.—Portland Exchange.

"Grudge" Fight on Sunday

CHICAGO, May 14.—Days when prize fighters fought with bare knuckles on the countryside and did not have over purses and weight, will be recalled Sunday when Phil Harrison and Eddie Neary decide who is the better man at some secluded spot near Chicago.

There will be no purse, for it is a grudge fight, and two sportsmen have agreed to furnish automobiles to transport the fighters to a lonely site, yet unselected, where they will settle their differences.

L. G. I. TEAM IS WINNER

LOCUST GROVE, Ga., May 14.—Locust Grove institute added another victory yesterday to her already long list by defeating the Reserves of the University of Georgia, by a score of 11 to 4. The game was never in doubt, Locust Grove making five runs in the first inning.

Dupree, of Locust Grove, featured with a circus catch in left field and a two-base hit with the bases full. Georgia played miserably in the field, running up ten errors. Dosier pitched his usual strong game, giving up but five hits and striking out twelve. The two teams play again today.

Batteries: L. G. I., Dosier and McCorvey; Georgia, Chandler and Torbert. Umpire, Combs.

Corley Hurls Both Battles With Jackets

Georgia Team Working Overtime to Get Back in Hitting Stride—Only Chance Is for Harder Clouting

ATHENS, Ga., May 14.—The fans of Athens are pulling for Georgia to get the "break" or "jump" in the series whic his to be played between Georgia and Tech this week. Both teams are on edge, and from the games in Athens last week it seems that the team which gets the jump will win.

Early in the first game the Tech nine took the lead, and by reason of their steady game retained it. Cunningham is working his men endeavoring to make them hit their hitting stride again and in this way swamp Tech with swats. The Georgia team has completely reversed its dope in the last two games. At the first of the season it appeared that they were a wonderful aggregation of hitters but weak in pitchers. In the games with Tech, however, the pitchers, Morris and Corley, with the battery mate Hutchens, played Georgia's best game, and the hitters were cutshone by the Tech aggregation. In other words, the hitters were in their prime earlier in the season and have had a reversal of form, while the pitchers who have been coming stronger all the while are now going their best gait.

Cunningham states that Corley, who is in better shape just now than Morris, may work both the Atlanta games. This lad is capable of doing this stunt, as he is big and strong, and is in the pink of condition just now. With the headwork of big Hutchens behind the bat, Corley is a puzzle to opposing teams.

From the appearance on Sanford flats yesterday of the team they are not yet returning to mid-season form. Cunningham was pitching to his men and begging them to hit, but very few balls went out of the infield. There is a rumor as to a change in line-up so as to work Bowden's tremendous hitting strength into the game. If this is done, Timon will probably appear in right garden in the place of Irwin. In this case he will be the second man on the batting list, Harrison, who has been batting second, going to sixth place.

From the Georgia record up to the Tech games, it looks like Georgia, from the Tech games it looks like a toss up.

The scores made by Georgia this season are as follows:

Georgia 5, Auburn 1.
Georgia 3, Auburn 4.
Georgia 11, Alma (6 of Six innings.)

Lookouts Will Make Changes

CHATTANOOGA, Tenn., May 14.—For the purpose of closing deals for an outfielder and another pitcher, President Andeson, of the local club, left last night for New Orleans. He will confer with Manager Elberfeld before any final steps are taken. The outfielder will come from the International league, and the hurler from the American.

They will probably be released, following the acquisition of Dygert, Williams and Detcher are expected to arrive in New Orleans for today's game. Harbison is to be placed upon the ineligible list until a deal or trade can be made.

Riders Work On New Track

As stated in The Journal yesterday the motordrome track will be open for training on Thursday afternoon after 4 o'clock, and each day thereafter until the opening date May 24. The riders will have a regular schedule of training hours, the arrangements to be made so that amateurs and professionals will not be on the track at the same time. There are quite a number of amateur riders of motorcycles in Atlanta who are said to take part in the events that will be put on for them. All those that intend to ride in these races are expected to register at once with the track, 62 North Pryor street, in order that they might get the registration cards and information. Since the track is new the riders are anxious to get as many amateur riders to compete as possible, but none will be allowed to ride a race until they show that they can ride the steep banked track safely. Every chance will be given them to learn, but they must grister first.

By Thursday afternoon nearly all of the professional riders will be here and they will get down to work at once as they will have a clear track to work on. A large crowd of motorcycle fans will be out tomorrow afternoon at 4:30 to see Harry Glenn make his first attempt to ride the banked track.

The measure, which will go into effect ninety days after the legislature adjourns, provides a fine of from $200 to $500 and imprisonment of not less than thirty days for those convicted of conducting places where bets are alltook to stop the bells the Yatesville will go to the informer.

GUESSING.

(In regard to the statement that Walter Johnson's curve ball is a joke.)

How do they know what Johnson's got—
Whether he uses a cure or not—
Whether his break is set?
How can they tell how his outshoots fall?
Whether his in-curve's big or small?
How do they know what he has on the ball?
Nobody's seen it yet.

How do they know how his curve ball looks?
Whether it rises, shoots or hooks?
Whether it's dry or wet?
I asked the Yanks and the Mackian crew
To tip me straight what the Big Smoke threw;
No one answered, for no one knew—
Not having seen it yet.

"How," queries a palpitating noncombatant, "does the umpire know whether Johnson has thrown a ball or a strike?" He does like the batter take a guess. It's a cinch for no one knows whether he is right or wrong.

Johnson has done something more than spin out fifty-three innings without a run. All told, this spring against clubs of both leagues—Phillies, Giants and Braves in the National; Athletics, Red Sox, Yanks and White Sox in the American—he has pitched seventy-two innings without an earned run marked up. The lone tally scored by the Yanks came through on Gandil's muff.

Seventy-two innings—eight complete ball games—against the star clubs of both big leagues and not a solitary batted from his gaunt system. There may have been a record compiled to equal this, but it was before the days of box scores and compiled averages—quite a spell before this country was tagged or Nineveh lost its franchise.

Doc White tore off fifty-six runless rounds back in 1904 for the White Sox, so Johnson now has only a short step to go before hanging up the greatest pitching marq ever set.

Last season Larry, Cheney copped twenty-six games and dropped ten for a pitching average of .722. For 1913 he has a start of seven out of eight, and with a good ball club back of him is likely to lead the league. The battle now in the National league looks to be among Cheney, Mathewson and Seaton or Alexander, four great pitchers, backed up by good ball clubs. Tesreau and Hendrix, who finished one, two last fall, have been blown too far off the trail to top the circuit unless they cut back in at amazing speed.

In the A. L. the battle looks to be among Johnson, Plank and Gregg. Johnson not only has the call, but he is more than primed to set a pitching mark never established before—a mark that will even top Joe Wood's amazing figures of thirty-three wins out of thirty-eight starts.

THE ULTIMATE PENALTY.

"Stovall," announces Clark Griffith, "shouldn't be deposed. That isn't right. He should be fined $1,000 and reinstated." In other words, don't imprison the guy, but have him drawn, quartered and burned at the stake.

YES, IT'S A PITY.

The shrieks of woe and pain that rise—
The wrecking sorrow, dull and sad,
Come from the pitchers who have heard
Ty's eyes are bad.

Yes, it's a shame the way they weep,
The way they moan from tee to tee,
The way their hearts have broken since
Ty cannot see.

I. L., J. K. F. and others—Sorry we are slow answering queries. But we never seem to catch up.

"What," exclaims a Pittsburg scribe, "is the matter with the Pirates?" Wait a bit. They haven't hit the Dodgers yet.

Mr. Ebbets' regret is that he only has one ball park to give to his country.

Bill Dahlen doesn't care to overwork Rucker, as he desires to have his great southpaw ready and in proper form to work the first October game against Plank or Johnson. Or maybe Gregg.

RAY KEATING, YOUNGSTER, IS SENSATION OF THE YEAR

Lad New York Club Picked Up Has Been Going in Grandest Style

Ray Keating, nineteen-year-old spitballer, appears to be the only pitcher on the staff of the New York Americans.

When the Yankees were wallowing in despair, with sixteen games lost and but three won, all three victories were credited to the boy wonder, who appears to be the only big leaguer capable of becoming another Ed Walsh.

Keating won three of his first five games. Now three won and two lost is not much of a performance, but—the three were the only games the team had won up to that time.

Only Walter Johnson and Eddie Plank beat Keating, and he outpitched Plank at that, but the Yankees could not get men around the bases, despite nine hits.

Keating broke into fast company last fall and made one trip with the Yankees, losing four games. He was purchased from the Lawrence club of the New England league for $7,000 upon the recommendation of Arthur Irwin Yankee scout.

Frank Chance declares Keating is the best young pitcher he ever saw—and Chance has looked over some good ones.

Keating uses a fast ball and the spitter. He has a near curve, but the only time he used it this year Rube Oldring bit it so hard the ball almost tore off one of Infielder Midkiff's legs, so the curve was retired.

Keating's fast ball has such a hop and his spitter breaks so viciously that American league batters have failed to solve him and he looks like one of the greatest finds in baseball.

Griffith a Near Winner

AKRON, Ohio, May 14.—Johnny Griffith, a local featherweight, and Pal Moore, of Philadelphia, fought twelve fast rounds here last night, Griffith appearing to have the better of the no-decision contest.

RAY KEATING.

MAKE STAR OUTFIELDER OF COLLINS, VANDERBILT STAR

NASHVILLE, Tenn., May 14.—Manager George Stallings, of the Boston Braves, is so greatly impressed with the wonderful speed of Wilson Collins, who reported a couple of weeks ago, that he is determined to make an outfielder of him instead of a pitcher. This announcement is made in a letter from Stallings to a friend in this city.

In Collins the Boston leader sees the making of another Cobb or Clyde Milan. He has heard much of the Vanderbilt star's speed before a contract was offered and no sooner was Collins seen in action than the crafty manager realized that there was too much speed and strength in the player to be wasted in a pitcher, and made up his mind instantly to develop him into a star outfielder.

Collins was naturally a little green at the outfield position at first, not having worked there but in a few games this year for the Commodores, but it did not take him many days to round into form and cover a world of territory.

"I don't expect to make a star out of Collins this year," writes Manager Stallings, "but hope he will round into form by the end of the season and be useful to us next season. Collins is an ambitious worker and seems to have the athletic instinct, which is a big help. He catches on well and should develop into a fine player sooner or later, on account of his unusual speed and strength."

Although he has pitched during practically all of his baseball career, Collins is a natural ball player and should make a brilliant outfielder. He has a good batting eye, which should improve with constant work, and is probably as fast on his pins as nearly any player in the big leagues. The fact that he is a right-handed hitter will keep him from getting to first as fast as some of the left-handers, but once on the paths he should be a terror to the opposing team.

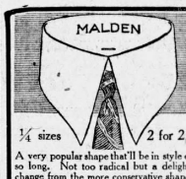
In addition to being a good fielder, Collins' throwing arm should be an added help in making good.

Collins writes his friends at Vanderbilt that he is well pleased with the Boston team and Manager Stallings, and hopes to make himself worth the money that he is drawing down. He is anxious to get into the game, but realizes that he is not yet ready to debut as an outfielder in the major leagues.

In the next few years it is possible that Collins may rank with Ty Cobb, Clyde Milan, Joe Jackson and other fleet Southerners in the big tent.

Yatesville Club Wins

YATESVILLE, Ga., May 15.—Yatesville team won a game from Barnesville A. & M. college by a score of 12 to 6. At the beginning of the game the Barnesville supporters had cow bells, dinner bells and one supper bell, but in a few innings the bells would not ring. What it tralian tennis team, which is preparing team happened to have.



A very popular shape that'll be in style ever so long. Not too radical but a delightful change from the more conservative shapes.

Princeton Wins Water Race

CAMBRIDGE, Mass., May 14.—Princeton showed aquatic strength and skill Monday by outrowing Harvard and the University of Pennsylvania in a one and seven-eight-mile race down the Charles river.

It was a stern chase by the winners, most of the way, for their start was poor. Pennsylvania was overhauled at the half-way mark and Harvard a mile down the course. Then Princeton gradually drew away and had a length to the good at the finish. Pennsylvania finished three lengths behind Harvard.

The times: Princeton, 10 minutes, 18 seconds; Harvard, 10 minutes, 22 seconds; Pennsylvania, 10 minutes, 34 seconds.

Harvard caught the water first at the start and had a lead of ten feet over Pennsylvania at the first quarter, while Princeton was half a length astern. It was a pretty race to the mile mark, when Princeton went to the fore and gradually increased its lead.

A quarter mile from the finish Harvard spurted, but Princeton met the dash and even bettered its lead, although there was not quite open water between the shells as they crossed the line.

The victory was the first success that has come to Princeton in a triangular contest since rowing was resumed there four years ago.

Had Great Year

ELBERTON, Ga., May 14.—The Elberton High school closed its season Saturday by dropping two to Greenwood High school. The team ended with a percentage of .500, having won six, lost six and tied one. Most of the credit of the team is due to the pitching of Smith and Sheppard and batting and fielding of Brewer, Harper, Hogan, Lalor, and the base running of Jones. The team hit on the edge of .700 for the thirteen games. Harper led with a percentage of .678, while Brewer came close with .609, and Hogan followed him with .400. A good many of the games showed that the team has had good working out. Arnold, Wallis, White also did some good work for the team.

April Report of National Egg-Laying Contest

UP until May first the hens had averaged fifteen more eggs than last year for the same period. The English pen of White Leghorns is still making a steady gain. Some suggestions as to why the English pen is in the lead.

It now begins to look like most of the pens in the National Laying Contest at Mountain Grove, Mo., are going to make really creditable records. No records are being broken. However, every hen in the contest but nine has laid, and they all seem to be doing their best. No individual or pen record is extremely high, but up to May first, the hens had averaged fifteen eggs each more than for the same period last year. The English pen is still gaining a little each month over the American pens. Some suggestions as to the reason for their record and their lead over the American pens are discussed in the latter part of this report. A Buff Wyandotte hen, No. 600, from Marysville, Mo., holds the record for April by laying an egg every day during the month. The hens are eating more feed than last year, especially in this true of the dry mash. Pen No. 26, Buff Wyandotte, laid 240 eggs during the month, an average of twenty-four eggs per hen for the thirty days, and won the silver cup for this month. Twenty-four pens laid over 200 eggs each during the month of April. Three hundred and sixty-seven hens laid more than twenty eggs each during the month. Out of the 700 hens, over half of them laid more that twenty eggs each in thirty days in spite of the fact that 195 hens had to be broken from broodiness. The ten leading pens have made the following record for the first five and a half months:

Pen No. 2—S. C. White Lehorns, England	1,117 eggs
Pen No. 23—Silver Wyandottes, Illionis	948 eggs
Pen No. 57—Black Langshans, Missouri	944 eggs
Pen No. 57—Silver Wyandottes, Iowa	914 eggs
Pen No. 33—Barred Plymouth Rocks, Illionis	865 eggs
Pen No. 49—Black Langshans, Missouri	850 eggs
Pen No. 56—White Orpingtons, Kentucky	846 eggs
Pen No. 20—White Wyandottes, Arkansas	842 eggs
Pen No. 58—Buff Orpingtons, Missouri	836 eggs
Pen No. 36—Buff Wyandottes, Vermont	832 eggs

The ten highest pen records for the thirty days in April were as follows:

Pen No. 26—Buff Wyandottes, Missouri	240 eggs
Pen No. 11—Black Minorcas, Iowa	233 eggs
Pen No. 1—Anconas, Missouri	231 eggs
Pen No. 2—S. C. White Leghorns, England	227 eggs
Pen No. 9—S. C. Brown Leghorns, Missouri	227 eggs
Pen No. 40—R. C. Reds, Missouri	224 eggs
Pen No. 44—White Plymouth Rocks, Wisconsin	224 eggs
Pen No. 55—Black Orpingtons, Ohio	221 eggs
Pen No. 56—White Orpingtons, Kentucky	219 eggs
Pen No. 53—Black Langshans, Indiana	218 eggs
Pen No. 32—White Plymouth Rocks, Missouri	218 eggs

The following ten hens have made good records for five and a half months, including the winter months. Their total record to May first was as follows:

Hen No. 66—S. C. White Leghorn, England	141 eggs
Hen No. 860—Buff Wyandotte, Vermont	136 eggs
Hen No. 600—Buff Wyandotte, Missouri	133 eggs
Hen No. 57—Black Langshan, Missouri	132 eggs
Hen No. 62—S. C. White Leghorn, England	126 eggs
Hen No. 65—S. C. White Leghorn, England	126 eggs
Hen No. 871—White Wyandotte, New Jersey	123 eggs
Hen No. 636—White Wyandotte, Arkansas	123 eggs
Hen No. 61—S. C. White Leghorn, England	123 eggs
Hen No. 601—Silver Wyandotte, Iowa	122 eggs
Hen No. 857—Buff Wyandotte, Vermont	122 eggs

(To Be Continued.)

Yours very truly,

QUESTIONS ASKED AND ANSWERED.

QUESTION.

Atlanta, Ga.

I find I have a Rhode Island Red hen now laying that opens her mouth and shakes her head as if she was strangling or probably trying to force some object up, and also have two Rhode Island Red hens that have a little water running from one ear. Would you kindly advise me what to do for them? M. B.

ANSWER.

Some time when chickens are confined they form a habit of shaking their head, especially after drinking water. They often get their wattles wet while drinking and undertake to shake the water off. This especially is the case during winter. I have often noticed chickens that do not have plenty exercise and much to do form a habit of this. It does not affect them and you should not give yourself any uneasiness about it. However, your hen may have been choked or may have a case of roup. It would be impossible for me to tell just what the trouble is unless I could see her. Vaseline for any throat trouble is usually the best thing that can be all-so. Sometimes they will get something in their throat and it will become irritated, and in a case of this kind a treatment of vaseline is the best thing that can be given.

The hens that have water running from their eyes probably have roup, as it affects them this way. By the free use of Conkey's Roup remedies this can be avoided or cured if, taken in time. You should also see that they do not roost in a draught or in a damp place.

QUESTION.

Atlanta, Ga.

Will you kindly publish this answer in The Journal.

I have a Buff Orpington rooster, and he has the blind staggers, I think. He will try to walk and falls over on his right side and can't get up. His side seems to be paralyzed and he has no control over his body.

Thanking you for all favors and wishing you success, I am,

A. H. B.

ANSWER.

When a bird gets in the fix yours is in the best remedy for him is the hatchet. It does not look like sick birds ever get well. They become paralyzed they seldom ever recover from it.

POULTRY FEED

IF YOU are a baby chick ask Mother Hen the best thing to eat—If you are a Rooster ask Lady Hen what she proposes to serve for dinner—if you are a Hen be true and answer: Bowls fed on AUNT PATSY POULTRY FEED give best results. Ask your dealer for Aunt Patsy Poultry Feed, the Egg Producer.

If you are a Hen Eat Aunt Patsy Poultry Feed—the Egg producer.
If you are a Baby Chick Eat Aunt Patsy Poultry Feed.
If you are a Rooster—Well! Be gallant and tell the hen she should Eat Aunt Patsy.

TERMINAL DISTRICT

ONE of the best opportunities in Atlanta real estate today is in the large section lying in between the Southern and A., B. & A railroad. This section is about four blocks wide and it extends from Magnolia street out as far as Bellwood avenue.

IN THIS QUARTER you can buy good sized pieces of land, improved with renting houses, property that yields a fair income and has speculative possibilities.

AS AN ILLUSTRATION, we can sell the southeast corner of Magnolia and Mangum streets, fronting 108 feet on Magnum street, for $7,500. This lot contains six buildings, five cottages, and a store, bringing in $69 a month. It is one of those good corners that in time will be necessary in assembling a block of land, and will bring a fancy price.

ON SIMPSON STREET we can sell an entire block of frontage for $5,000. It lies between Davis and Edwards streets, fronting 214 feet on Simpson street and extending back 130 feet. All three streets are paved and have all improvements down. This is the block with the old stone house on it.

HERE is a choice little factory site bordering directly on A., B. & A railroad, the southwest corner of Fox and Wilson streets. It fronts 220 feet on the railroad and has three renting homes. Price $2,500.

WEST SIDE values are low in comparison with other sections and they are sure to go up in the process of equalization. All forward-looking men should lay in a few west side investments for future use.

IN THE REAL ESTATE FIELD

Seaboard Air Line to Seek New Freight Terminals – Ellis Street and Other Sales–Permit Asked for Washington Street Apartments–Flag Raised on Seventeenth Story of Hurt Building – Brookhaven Club Sale Soon to Be Closed

A rumor that has been prevalent in real estate circles for some time to the effect that some railroad, probably the Seaboard Air Line, was going to build new terminals, was partly verified Wednesday on the return to Atlanta from the east of R. F. Maddox, one of the directors.

Mr. Maddox said that the road would have to have new freight terminals. Its present lease, held jointly with the W. & A. on the state's property in the rear of the Austell building, has only six or seven years to run, and the road, besides, needs more room.

Mr. Maddox said, however, that the matter of the selection of a new site could not be gone into very soon. The move would require a large expenditure of money and careful consideration.

However, he said that the move would have to come, although he could throw no light on a possible location.

REALTY SALE NOTES.

The Martin-Ozburn Realty company has sold for a client to Alex Reeves, No. 104 East Ellis street for an aggregate of $10,000. This property consists of an old dwelling on a lot 40x156. Ballew & Rowland have sold four lots of their subdivision on Metropolitan avenue, in Kirkwood, at prices of $800 to $1,000. The lots are 50x100 each.

APARTMENT PERMIT ASKED.

Application has been made by S. Selig for a permit to build a three-story apartment house at Washington and Pace streets. The building will cost $35,000.

HURT BUILDING NOTE.

A flag was raised early Wednesday afternoon on the seventeenth story of steel frame work on the Hurt building at Edgewood avenue and Exchange place. This is the last story of the steel frame, and it will be completed and ready for the roof before the end of the week.

BROOKHAVEN PURCHASE.

The trade between the Capital City club and the Brookhaven estates for the Brookhaven club property will be definitely closed shortly.

R. F. Maddox, who is one of the Capital City club committeemen who were appointed to close up the transaction, returned to town Wednesday and took up the matter with Charles E. Glover, who is handling the transaction.

BRONCHITIS SUFFERER

Takes Druggist's Advice With Splendid Result.

If any one should know the worth of a medicine, it is the retail druggist who sells it over his counter every day in the week, and is in a position to know what remedy gives the best satisfaction.

Mrs. Frank H. Ulfne of West Sand Lak, N. Y., says: "For a number of years I was a great sufferer from bronchitis. Last July I had an attack which was more severe than any and my friends thought I could not recover from it. Then I was advised by my druggist to try Vinol, which I did with wonderful results. My cough has left me; I have gained in weight and appetite and I am as strong as ever I was. I advise all who have bronchitis, chronic coughs, or who are run-down to try Vinol."

It is the combined action of the medicinal curative elements of the cod's liver, without oil, aided by the blood-making and strength-creating properties of tonic iron that makes Vinol so efficient in such cases.

Remember, we guarantee Vinol to do just what we say—we pay back your money if it does not. Elkin Drug Co., Atlanta, Ga.—(Advt.)

THREE ASSEMBLIES AWAIT OPENING OF OFFICIAL SESSIONS

(Continued From Page 1.)

clusion on Friday afternoon of next week.

IN THE "U. P." ASSEMBLY.

In the United Presbyterian assembly the report of the committee on union with the U. S. assembly will be the most important topic, perhaps; but no definite action will be taken on it. The United Presbyterians convene their assembly and begin their work Wednesday night in the Central Presbyterian church. The reports of its boards and of its permanent committees very probably will lead to interesting discussions, the boards particularly being concerned with the vital matters of the church. The committee reports all are important. Among these are the report of the narrative and state of religion committee, which presents a general survey of the work done during the year; the report on the young people's work; the report on rural churches—a new subject, interesting to all; the report on brotherhood, wherein are gathered summaries of the men's organizations in the church; and the report on industrial conditions. There will arise no issue in the United Presbyterian assembly on which a pronounced division of opinion will be manifest. The assembly is practically of one mind, it is said, in favor of the proposed union.

THE "SOUTHERN" ASSEMBLY.

In the U. S. assembly (southern) the most interesting subject is expected to be that of union with the U. P. assembly.

Another very interesting discussion will bear upon this assembly's relations with the federal council of churches of Christ in America. The assembly now is a member of that council, but there will be made a strong effort to withdraw from it because of dissension from some of the proceedings of the last quadrennial meeting at Chicago. This effort will be made following the report of the assembly's delegates at that meeting.

Another interesting topic will be the foreign mission work of the church, in which there has been a great development during the past year. In that period a big debt has been paid and the appointment exceeded by some $40,000.

Another important discussion will concern the campaign of evangelism and stewardship, begun last year, referred to as the "million and a half campaign," in which effort was planned to raise $1,500,000.

AUDITORIUM MEETING.

The first auditorium meeting, or popular session, will be held Thursday evening, but all of the assemblies and the commission of the Associated Reformed synod. The hour will be 8 o'clock. That will be called the fellowship meeting.

The meeting that begins at the same hour and in the same auditorium Friday evening will be concerned with Christian social service.

There will be no auditorium meeting Sunday night, but there will be numerous rallies and meetings in other halls.

The work among colored people will be the subject of the Monday evening meeting in the auditorium; home missions, Tuesday evening; foreign missions Wednesday evening, and church and education Thursday evening.

LITTLE MELVILLE FULLER DIES AT PARENTS' HOME

Melville Thornton Fuller, youngest child of Mr. and Mrs. James M. Fuller, died at the residence of his parents, 76 South Ashby, at 4 o'clock Wednesday morning after an illness that covered a period of several weeks. Pneumonia was the immediate cause of his death, although other complications arose after the first attack. Everything possible was done to alleviate his sufferings and to save his life but despite the most tender nursing and medical skill he failed to survive.

The funeral services will be held at the family residence Thursday afternoon at 2 o'clock and the interment will be at Greenwood cemetery.

The little Melville was eighteen months old on Tuesday.

PRESBYTERIANS IN CONFERENCES PREPARE FOR ASSEMBLY SESSIONS

Seven Pre-Assembly Meetings Held During Morning, at Which Important Phases of Church Work Were Considered—Afternoon Program

Seven conferences, preliminary to the three Presbyterian assemblies which get underway Thursday, were held in Atlanta churches Wednesday morning, and the subjects discussed were education, missions and evangelism.

The northern assembly held four conferences, the southern assembly held two, and the northern, southern and United assemblies joined together in the conference on evangelism, which latter was held in the North Avenue Presbyterian church.

The northern assembly's conference on education was held at the Baptist Tabernacle and was attended by about 200. J. W. Cochran, D. D., secretary of the board of education of the northern assembly, was elected chairman, and F. B. McMillen, of Mount Gilead, Ohio, was elected secretary.

Dr. Cochran opened the conference with an address on the place of the board of education in the educational program of the south. At the conclusion of this address Rev. W. S. Plumer Bryan, of Chicago, started quite a discussion by saying that the distinction between the board of education and the college board is artificial. The opinion of the conference appeared to agree with him.

The assembly adopted resolutions asking the assembly to direct the board of education to provide assistance for training lay workers needed in fields unable to support pastors.

After lunch the conference will reconvene for an all afternoon session. There will be addresses on university work, reports from universities and discussions of the legal aspects of university work, the agencies involved in university work, and education and the age limit.

CONFERENCE ON MISSIONS.

The northern assembly's conference on missions was held in the Harris Street Presbyterian church. Hall M. Patterson, of St. Louis, field secretary of the southern district, preside. Dayton A. Dobbs, of Johnson City, Tenn., was secretary.

The campaign to raise $735,000 in three years for mission work in China was the theme of the discussion. Dr. A. W. Halsey, of New York, gave a brief history of the campaign, which started one year ago. Rev. F. W. Bible, a furlough missionary who has worked on one of the team campaigns, gave some valuable lessons gained in that work. Rev. C. E. Bradt, of Chicago, field secretary of the central district, spoke along the same line. He said the Chinese are not incomprehensible, but are "just folks," and that the Anglo Saxon's chief claim to being extraordinary consists in his Christian enlightenment. The morning session closed with a general discussion of plans for the furtherance of the campaign during the fall and winter of 1913-1914.

The conference will hold an afternoon session beginning at 2:15 o'clock, and in the evening will join with the southern assembly's missionary conference in a great popular meeting at the First Presbyterian church.

U. S. A. COLLEGE PRESIDENTS.

The college presidents of the northern assembly held their conference in the Sunday-school room of the Harris Street Presbyterian church. Dr. John H. McCracken, syndic of the New York University, and president of the college board, presided. Twenty-seven colleges were represented. The questions discussed were: "The Bible in the Curriculum," "Are Secret Societies an Advantage or Disadvantage?" "Distribution and Differentiation of Colleges."

The college presidents took lunch at Durand's with the southern assembly's conference on education, and returned at 2 o'clock for an afternoon session.

In the evening there will be a joint conference with the college men of the southern and the United assemblies.

The northern assembly's conference on the elogical seminaries was held at Central Congregational church. The morning session opened at 10 o'clock and continued with general discussion until lunch hour, after which it reconvened for an afternoon session.

SOUTHERN ASSEMBLY EDUCATORS.

The southern assembly's educational conference, which opened Tuesday afternoon ,continued Wednesday morning at the First Baptist church with general discussions. It was the sense of the conference that public schools should be Christian, though not dominated by any particular denomination; and that the church schools and colleges should get more liberal support from the members of the church, inasmuch as 90 per cent of the lay and ministerial workers now in the church were graduated from church colleges.

The conference will hold an afternoon session, and in the evening will go to the Harris street church, to unite with the educational workers of the northern and the United assemblies.

SOUTHERN ASSEMBLY MISSIONS.

The southern assembly's missionary conference was held in the First Presbyterian church. Dr. Egbert W. Smith, of Nashville, executive secretary of the assembly's mission committee, presided, and J. P. McCallie, of Chattanooga, was secretary.

A topic discussed was how to stimulate interest at home in foreign missions. Quite a number of foreign missionaries, now at home on furloughs, were present.

This conference will hold an afternoon session, and in the evening will join with the missionary conference of the northern assembly, in the First Presbyterian church.

NOTABLE EVENING CONFERENCE.

A notable evening session will be that of the northern assembly on the subject of missions, home and foreign. For this session the northern assembly will move from Harris Street church to the First Presbyterian church, to join with the southern assembly in a great popular meeting.

Some of the most prominent Presbyterian missionary workers in the world will address this conference. Dr. Henry Sloane Coffin, of New York, will speak. Dr. S. Hall Young, who has been thirty years in Alaska, will tell of mission work in that country. Dr. James B. Rodgers, a missionary in the Philippines, will deliver an address. Dr. William R. King, of Illinois, who has just returned from a trip around the world, will tell his observations of mission work in foreign lands.

The pre-assembly conferences are preliminary to the various assembly meetings. They will be over Wednesday night, and the assemblies will get down to business Thursday morning, except the United assembly, which opens Wednesday night in Central Presbyterian church.

THE ASSEMBLY MEETINGS.

The Northern assembly will meet in the Baptist Tabernacle. It opens on Thursday morning at 10:30 o'clock with a sermon by the retiring moderator, Dr. Thomas S. Clyce, of Sherman, Texas. Thursday afternoon the assembly wil elect a new moderator, who will immediately take the gavel, and the assembly will then proceed to business.

The United assembly will open Wednesday evening with a sermon by the retiring moderator, D. H. H. Bell, of San Francisco. Thursday morning the assembly will elect a new moderator, who will immediately take the gavel, and the assembly will then proceed to business.

These meetings of the assemblies will be separate and distinct from one another, just as if they were meeting in different cities. They will continue until about the middle of next week.

GREAT JOINT MEETINGS.

Every evening, however, the three assemblies will come together at the auditorium for the great popular meeting, the first of which is Thursday evening. These will be not only the largest Presbyterian meetings in the world's history, but also they will be the first of their kind ever held, as this is the first time the three great assemblies of the Presbyterian church have ever met in the same city at the same time.

The assemblies bring together 1,500 commissioners and several thousand visitors.

About 500 commissioners had arrived by 10 o'clock Wednesday morning, and the balance will be here by 10 o'clock Thursday morning. As fast as they arrive they are assigned to their homes. For them the local Presbyterians are providing free entertainment. But for the visitors this will not be undertaken, although the committees are aiding the visitors to find suitable lodgings and board at reasonable rates.

Dr. Mark A. Matthews Welcomed in Calhoun

CALHOUN, Ga., May 14.—Dr. Mark A. Matthews, moderator of the Presbyterian church (Northern) visited Calhoun, his native town, today. He was met at the train by a large and representative gathering of citizens and was conveyed by automobile for a tour of the town.

In the afternoon the Woman's club gave him a public reception in the park. The local band was present and rendered appropriate music and a short address was given by the distinguished guest.

At night at the Methodist church a great home coming service was held, presided over by Dr. W. H. Darnall, pastor of the local Presbyterian church. The welcome address was made by Miss Lulie Pitts and a poem composed especially for the occasion was read by Mrs. B. M. Harlan. At the close of an interesting speech made by Dr. Matthews a handsome gavel was presented to him from the friends of his native town. This gavel will be used to open the general assembly in Atlanta Thursday morning.

Dr. Matthews was born and reared in Calhoun and began his ministry in the little Presbyterian church here. The people of Calhoun feel a pride in his distinguished career.

CITY TO SPEND $6 FOR NEW PANTS FOR A COP

"What is the value of a pair of trousers?"

This question was debated for fifteen minutes by the twelve members of the board of police commissioners Tuesday night. The astute commissioners finally decided solemnly that $6 is a fair price.

The question arose on the suggestion that Policeman Watson be reimbursed for a pair of trousseds he tore when he fell while hotly pursuing a negro burglar a few days ago. Policeman Watson didn't request the money from the board but it was decided that the valor that he displayed on the occasion should not go unrecognized, inasmuch as he lost more square inches of skin from his knees than he did cloth from his trousers.

So Policeman Watson's new pants, which he will don when he is able to be on duty again, will be bought by the city at a cost of $6.

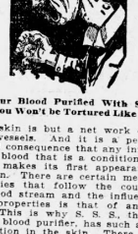
For a Red Blotchy Skin

The Remarkable Action of a Famous Remedy and Some Facts About it.



Get Your Blood Purified With S. S. S. and You Won't be Tortured Like This.

The skin is but a net work of fine blood vessels. And it is a perfectly natural consequence that any influence in the blood that is a condition of ill health makes its first appearance in the skin. There are certain medicinal properties that follow the course of the blood stream and the influence of these properties is that of an antidote. This is why S. S. S., the best known blood purifier, has such a positive action in the skin. There is one ingredient in S. S. S. which peculiarly stimulates cellular or glandular activity to select from the blood or from this fine net work of blood vessels in the skin, those elements which it requires for regeneration.

Thus pimples, acne, eczema, lupus, or any other blood condition that attacks the skin or seeks an outlet through the skin is met with the antidotal effect of S. S. S.

This is why skin troubles vanish so readily and why they do not return.

Under the influence of S. S. S. this fine net work of blood vessels in the skin is constantly taking from the blood the nutrition required for healthy tissue and the cause of disease is just as constantly being removed, scattered and rendered harmless. These facts are more fully explained in a book on skin troubles sent by The Swift Specific Co., 137 Swift Bldg., Atlanta, Ga. You will find S. S. S. on sale at all drug stores. Get a bottle to-day and banish all skin afflictions.
